

Table of Contents

1. Introduction	1
2. Background on Diabetes Self-Management.....	7
3. Defining and Categorizing Diabetes Apps for Self-Management	17
4. Diabetes App Use – Previous mHealth Research	29
5. Antecedent Factors of Diabetes App Use	39
6. Summarizing mHealth Research Gaps I: Alternative Theory is Needed.....	51
7. Empowerment as an Antecedent of Diabetes App Use	53
8. Summarizing mHealth Research Gaps II: Empowerment and Diabetes App Use.....	85
9. Summarizing Model on Empowerment and Diabetes App Use	89
10. Research Questions and Hypotheses.....	93
11. Overview of the Research Design.....	97
12. Study 1 – Diabetes App Features Corresponding to Indicators of Empowerment: An App Feature and Quality Analysis.....	101
13. Study 2 – Interviews on App Use for Diabetes Self-Management and the Relevance of Empowerment.....	131
14. Study 3 – An Online Survey on Empowerment as an Antecedent of Diabetes App Use.....	197
15. Discussion and Deriving Research Gaps.....	243
16. Learning from Research Results – Implications for Research and Diabetes Care Practice	265
17. Summarizing Research Limitations	273
18. Conclusion.....	275

Table of Contents

1. Introduction	1
1.1. The Urgency of Self-Management in Diabetes Care	1
1.2. Research Interest: Empowerment as an Antecedent Factor of Diabetes App Use for Self-Management	2
1.3. Chapter Overview	5
2. Background on Diabetes Self-Management.....	7
2.1. What is Diabetes? – Types of Diabetes Mellitus	7
2.2. Diabetes Self-Management – Definition and Development	9
2.3. Factors Influencing Diabetes Self-Management.....	12
3. Defining and Categorizing Diabetes Apps for Self-Management.....	17
3.1. Diabetes Apps for Self-Management as Second Generation mHealth Tools.....	17
3.2. Purpose, Types and Features of Diabetes Apps for Self-Management	20
3.3. Shortcomings of Diabetes Apps and Diabetes App Quality.....	23
4. Diabetes App Use – Previous mHealth Research	29
4.1. Defining Diabetes App “Use”	29
4.2. Categorizing Studies on Diabetes App Use: The Inputs-Mechanisms-Outputs Pathway	30
4.2.1. Input: Feasibility and Accessibility Studies	32
4.2.2. Output: Diabetes App Usage Effect Studies.....	35
4.2.3. Mechanisms: Lacking Research on Antecedents of Health App Use	38
5. Antecedent Factors of Diabetes App Use	39
5.1. Defining “Antecedents” of mHealth Use.....	39
5.2. The Relevance of Studies Looking into Antecedents of mHealth Use.....	40
5.3. Previous Studies Looking into Antecedents of mHealth Use.....	41

5.4.	Antecedents of the Unified Theory of Acceptance and Use of Technology	42
5.5.	Shortcomings of the Unified Theory of Acceptance and Use	45
6.	Summarizing mHealth Research Gaps I: Alternative Theory is Needed	51
7.	Empowerment as an Antecedent of Diabetes App Use.....	53
7.1.	The Empowerment Approach in Psychology and Management Research.....	53
7.1.1.	Psychological Empowerment	56
7.1.2.	Behavioral Empowerment	59
7.1.3.	Empowerment as a Motivational Approach	66
7.1.4.	Empowerment and Self-Determination	68
7.2.	Empowerment and its Relevance for Diabetes Self-Management	70
7.3.	Empowerment and Diabetes App Use	73
7.3.1.	Research on Empowerment and Diabetes App Use: Outcome Perspectives.....	73
7.3.2.	Understanding the Overall Process of Empowerment and Diabetes App Use	78
7.3.3.	Empowerment as an Antecedent of Diabetes App Use	80
8.	Summarizing mHealth Research Gaps II: Empowerment and Diabetes App Use	85
8.1.	Empowerment as a Multi-Dimensional Antecedent of Diabetes App Use	85
8.2.	Two Research Perspectives on Empowerment as an Antecedent of Diabetes App Use	86
9.	Summarizing Model on Empowerment and Diabetes App Use.....	89
10.	Research Questions and Hypotheses	93

11. Overview of the Research Design	97
11.1. mHealth Research on Diabetes App Use in Singapore.....	97
11.2. Research Procedure.....	98
12. Study 1 – Diabetes App Features Corresponding to Indicators of	
Empowerment: An App Feature and Quality Analysis.....	101
12.1. Method.....	102
12.1.1. Operationalization.....	102
12.1.2. App Collection Procedure.....	104
12.1.3. Pretesting and Coding Procedure.....	107
12.1.4. Data Analysis.....	110
12.2. Results.....	110
12.2.1. Features and Types of Diabetes Apps	110
12.2.2. App Features Corresponding to Psychological	
Empowerment Indicators.....	111
12.2.3. App Features Corresponding to Behavioral	
Empowerment Indicators.....	115
12.2.4. Diabetes App Quality Assessment.....	117
12.2.5. MySugr App Series Chosen for Study 2.....	120
12.3. Discussion.....	122
12.4. Study Limitations.....	126
12.5. Conclusion	128
13. Study 2 – Interviews on App Use for Diabetes Self-Management	
and the Relevance of Empowerment.....	131
13.1. Method.....	131
13.1.1. Operationalization.....	133
13.1.2. Sampling and Data Collection Procedure.....	136
13.1.3. Data Analysis – Thematic Analysis.....	137
13.1.4. Data Analysis – Diabetes App User Typology.....	140
13.2. Results.....	141
13.2.1. Sample Description.....	141

13.2.2. Diabetes App Use in the Sample	146
13.2.3. Potential Antecedents of Diabetes App Use Represented in the Interviews.....	150
13.2.4. Diabetes App (Non-) User Group Differences – Typology.....	164
13.3. Discussion.....	190
13.4. Study Limitations.....	193
13.5. Conclusion	195
14. Study 3 – An Online Survey on Empowerment as an Antecedent of Diabetes App Use.....	197
14.1. Method.....	197
14.1.1. Operationalization.....	199
14.1.2. Pretest and Sampling	201
14.1.3. Data Analysis.....	203
14.2. Results.....	206
14.2.1. Sample Description.....	206
14.2.2. Diabetes App Use	209
14.2.3. Types of Diabetes App (Non-) Users – Results from Hierarchical Cluster Analysis	211
14.2.4. Differences between Diabetes App Users and Non-Users – Hypotheses.....	223
14.2.5. Most Relevant Factors’ Strength of Influence on Diabetes App Use	226
14.3. Discussion.....	233
14.4. Study Limitations.....	239
14.5. Conclusion	241
15. Discussion and Deriving Research Gaps.....	243
15.1. Summary on Study Results from Studies 1 to 3	243
15.2. What does Empowerment Explain?.....	249
15.2.1. Empowerment and Diabetes App Use.....	249
15.2.2. Empowerment and Other Influencing Factors.....	251

15.3. The Value of Empowerment for mHealth Research.....	258
15.4. The Operationalization of Empowerment.....	260
16. Learning from Research Results – Implications for Research and Diabetes Care Practice.....	265
16.1. Implications for Other Health Domains.....	265
16.2. Advancing Methodology	266
16.3. Implications for Diabetes Care – The Practical Value of Diabetes Apps.....	267
16.4. Designing Diabetes Apps for Specific Target Groups.....	270
17. Summarizing Research Limitations	273
18. Conclusion.....	275
