Dentist mds M. Murat Gözübüyük

Kate & Dr. Amos

A dentist story

Kate: "Dad, Tim says all dentists are monsters. Why do I have to go to the dentist?"

Dad: "To stay healthy and have nice teeth, we have to visit dentist regularly. Do you remember Dr Brown? You were very brave when you got the injection by him."

Kate: "Can't Dr Brown take a look at my teeth? I like him."

Dad: "Dr Brown is not a dentist, only dentists look after our teeth. It is time for you to meet Dr Amos. And you'll see he's not a monster. Let us make an appointment, shall we? You can go with your mother, honey."

Kate: "What is he going to do?"

Dad: "First he is only going to look in your mouth, and he'll tell you what he sees."

Kate: "How?"

Dad: "You are going to sit in his movable chair and he'll take a look at your teeth with his small mirror."

Kate: "How can he see all my teeth?"

Dad: "He uses a special lamp, because it's dark in your mouth. And with the mirror he can see all your teeth from inside and outside. He also has an instrument to control cavity. If there are some holes, he can check out, how deep they are."

Kate: "I brush my teeth every day and I don't have any pain, dad."

Dad: "Yes, than you will be finished very quickly. So after your visit I would like to know, what you think about Dr Amos and his dental office."
