Part I Introduction

1	Introduction	3
----------	---------------------	----------

Part II Theoretical Background

2	Function-related Background	9
2.1	Functions	9
2.1.1	Definition of Functions	10
2.1.2	Conceptualizing Functions	11
2.2	Quadratic Functions	16
2.2.1	Definition of Quadratic Functions	16
2.2.2	Conceptualizing Quadratic Functions with Focus on Transformation	20
2.2.3	Obstacles and Misconceptions	23
2.3	Variables and Parameters	26
2.3.1	The Concept of Variables	26
2.3.2	The Concept of Parameters	31
2.3.3	Misconceptions of Variables and Parameters	34
2.4	Representations and Change of Representations	36
3	Use of Technology	41
3.1	Artifacts and Instruments: The Instrumental Approach	41
3.2	Affordances and Constraints of Using Technology	45
3.3	Influence of Technology Use on Students' Learning	49
3.4	Learning Function Transformation With the Use of Technology	50

3.5	Communication and Technology	53
4	Discovery Learning	57
4.1	Introduction to Discovery Learning	58
4.2	Guided Discovery	63
4.3	Guided Discovery in This Thesis	67
 Part III Empirical Study		
5	Research Questions	71
6	Overview of the Study	73
6.1	Decision of Technology Use	74
6.2	Pretest	75
6.3	Intervention	75
6.4	Different Intervention Groups	77
6.5	Research Instruments	79
7	Design of the Materials	81
7.1	Design of Pretest Items	81
7.1.1	Finding Coordinates (Item P1ZC)	82
7.1.2	Algebra (Item U2PT)	83
7.1.3	Variable as an Unknown (Item E4FV)	84
7.1.4	Fill Graphs (Item N1FQ)	85
7.1.5	Dependence of x and y (Item D3JG)	86
7.1.6	Variable Concept (Item D4JG)	87
7.1.7	Change of Representation (Item A6XY)	87
7.1.8	Family of Functions (Item Y3GJ)	89
7.1.9	Properties of Linear Functions (Item R5TG)	90
7.1.10	Properties of Quadratic Functions (Item R4TG)	91
7.2	Development of the Tasks for the Intervention	92
7.2.1	First version: a Minimally Guided Discovery Approach	93
7.2.2	Second Version: an Approach Between Minimally Guided and Guided	97
7.2.3	Final Version: A Guided Discovery Approach	102
8	Method of Analysis	109
8.1	Qualitative Content Analysis	109
8.2	Analysis of Pretest Results	110
8.3	Analysis of Summary Sheets	110

8.3.1	Structure, Representation, Language Use and Content	111
8.3.2	Students' Reasoning	111
8.3.3	Quantitative Analysis of Summary Sheets Results	112
8.4	Analysis of Videos	112

Part IV Results

9	Data	117
9.1	Participants	117
9.2	Data Overview	119
10	Pretests	121
10.1	Mean Test Scores	121
10.2	Pretest Results by Item	124
10.2.1	Finding Coordinates (Item P1ZC)	124
10.2.2	Algebra (Item U2PT)	124
10.2.3	Variable as an Unknown (Item E4FV)	125
10.2.4	Fill Graphs (Item N1FQ)	125
10.2.5	Dependence of x and y (Item D3JG)	126
10.2.6	Variable Concept (Item D4JG)	126
10.2.7	Change of Representation (Item A6XY)	126
10.2.8	Family of Functions (Item Y3GJ)	127
10.2.9	Properties of Linear and Quadratic Functions (Items R5TG and R4TG)	127
10.3	Conclusion Pretest Results	128
11	Summary Sheets	129
11.1	General Results	130
11.1.1	Structure of Summary Sheets	130
11.1.2	Overall Viability of Summary Sheets	132
11.1.3	Results Regarding Parameter a	135
11.1.4	Results Regarding Parameter b	138
11.1.5	Results Regarding Parameter c	140
11.1.6	Results Regarding Language Use	143
11.1.7	Explaining—a Special Challenge	146
11.1.8	Conclusion General Results Summary Sheets	147
11.2	Students' Reasoning Concerning Parameter c	147
11.3	Conclusion Analysis of Summary Sheets	151

12 Videos	155
12.1 Two Examples of a Guided Discovery Process	155
12.1.1 An Example Using Function Plotters	156
12.1.2 An Example Using Sliders	160
12.1.3 Conclusion of the Two Examples	163
12.2 Potentials of the Approach	164
12.2.1 Affordance Through Use of Technology	165
12.2.2 Drag Mode Leads to Different Direction of Change of Representation	174
12.2.3 Communication With and of Technology	175
12.2.4 Early Versions of Explanations	181
12.3 Constraints of the Approach	184
12.3.1 Obstruction of Insights Through Technology	184
12.3.2 Value of a in Standard Parabola	189
12.3.3 Parameter Stereotypes	196
12.3.4 No Need to Explain	199
12.4 Conclusion Video Results	200
 Part V Conclusion	
13 Conclusion	205
13.1 Summary	205
13.2 Limitations of the Study	215
13.3 Implications	216
 Original German Versions of Pretest Items	219
Full Tasks	225
Full Coding Manual for Summary Sheet Analysis	241
Bilingual Examples of Summary Sheet Categories	249
Comparison Summary Sheets Between Dynamic and Static Groups	257
Description of the Two Examples of Guided Discovery	259
References	267
