Abstract	ix
Zusammenfassung	xi
Abbreviations	xix
1 Introduction	1
1.1 Millimeter Wave MIMO Systems	2
1.2 Problem Statement	6
1.3 Highlights of Contributions	9
1.4 Structure	14
2 Fundamentals and Review of State-of-the-art Channel Models	17
2.1 Basic Components of mmWave Channel Modelling	18
2.2 Double-Directional Radio Channels	20
2.3 Geometry Based Spatial Channel Model (GBSCM)	21
2.4 Review of Selected Small-scale Fading Models	24
2.4.1 Rayleigh and Rice Fading Models	25
2.4.2 Two Wave with Diffuse Power (TWDP) Scattering Model	27
2.4.3 Fluctuating Two Ray (FTR) Model	28
2.4.4 Nakagami Fading Model	29
2.4.5 Sparse Multipath Model	29
2.5 Generation of Fading Waveforms	30

2.5.1	Fading Waveforms Generation Methods	30
2.5.2	Parameter Computation Methods.	36
2.6	Channel Models for MIMO Simulations	36
2.6.1	Channel Models for Narrowband Sub 6 GHz Systems	38
2.6.2	Channel Models for mmWave Systems	42
2.7	Conclusion	48
3	Frequency Dependence of Propagation	51
3.1	Introduction	51
3.2	Measurement Campaigns	52
3.2.1	Lecture Room Scenario	52
3.2.2	Vehicle to Vehicle (V2V) Communication Scenario	54
3.2.3	Industry Scenario	56
3.3	Frequency Dependence in Omni-Directional Channels	57
3.4	Frequency Dependence in Sub-bands of Directional Radio Channels	62
3.5	Conclusion	68
4	Impact of System Bandwidth on Radio Channel	69
4.1	Introduction	69
4.2	Measurement Campaign and Data Processing	70
4.3	Fading of the Receive Signal Magnitude	73
4.4	Cross Polarization Power Ratio (XPR)	77
4.5	Validity of Uncorrelated Scattering Assumption	82
4.6	Second-Order Statistics of CIR Vector	86
4.6.1	Temporal Auto-Correlation Function	87
4.6.2	Temporal Cross-Correlation and Complementary Auto-Correlation Functions	89
4.7	Conclusion	93
5	Impact of Antenna Directivity on Radio Channel	95
5.1	Introduction	95

5.2	Measurement Campaign	97
5.3	Fade Depth Analysis	101
5.4	Second-Order Statistics of CIR Vector	103
5.5	Statistical Characterization of Measured Channels	106
5.5.1	WSS in the Rx Signal Magnitude	106
5.5.2	Variance of the Rx Signal Magnitude	110
5.5.3	WSS in the Complex CIR Over the Slow-Time	113
5.5.4	WSS in Frequency Domain	116
5.6	Multipath Modelling	118
5.7	Conclusion	120
6	Summary and Future Work	123
