

# TABLE OF CONTENTS

|                                                                        |   |
|------------------------------------------------------------------------|---|
| RESEARCH ON STEM EDUCATION IN THE DIGITAL AGE: EDITORIAL .....         | 1 |
| <i>Matthias Ludwig, Simon Barlovits, Amélia Caldeira and Ana Moura</i> |   |

## TOPIC 1: IDEAS AND EXPERIENCES FOR THE DESIGN, CONDUCT, AND ASSESSMENT OF ONLINE COURSES.....7

|                                                                              |   |
|------------------------------------------------------------------------------|---|
| EFFECTIVE ONLINE PROFESSIONAL DEVELOPMENT: A FACILITATOR'S PERSPECTIVE ..... | 9 |
| <i>M. Sencer Corlu, B. Sumeyye Kurutas and Serkan Ozel</i>                   |   |

|                                                                    |    |
|--------------------------------------------------------------------|----|
| FORMATIVE ASSESSMENT IN ONLINE COURSE – IDEAS AND EXPERIENCES..... | 25 |
| <i>Martina Geisen and Joerg Zender</i>                             |    |

|                                                                    |    |
|--------------------------------------------------------------------|----|
| MODELING TASKS UNDER THE PERSPECTIVE OF 'GRUNDVORSTELLUNGEN' ..... | 33 |
| <i>Michael Kleine and Léon Anhalt</i>                              |    |

|                                                                        |    |
|------------------------------------------------------------------------|----|
| ENACTIVE LEARNING IN MATHEMATICS AT HOME - THEORETICAL FRAMEWORK ..... | 41 |
| <i>Michael Kleine and Christian van Randenborgh</i>                    |    |

|                                                                         |    |
|-------------------------------------------------------------------------|----|
| BRINGING 3D PRINTING INTO STUDENT TEACHERS' MATHEMATICS EDUCATION ..... | 49 |
| <i>Tim Läufer and Matthias Ludwig</i>                                   |    |

## TOPIC 2: INNOVATIVE APPROACHES OF USING DIGITAL TECHNOLOGY IN EDUCATION ..... 57

|                                           |    |
|-------------------------------------------|----|
| TECHNOLOGY SUPPORTED ACTIVE LEARNING..... | 59 |
| <i>Carlos Vaz de Carvalho</i>             |    |

|                                                                                  |    |
|----------------------------------------------------------------------------------|----|
| GEOMETRY MAPPING TOOL: IMPROVEMENTS ON A DESCRIPTIVE GEOMETRY LEARNING TOOL..... | 69 |
| <i>João Romano Barbosa and João Paulo Pereira</i>                                |    |

|                                                                                                |    |
|------------------------------------------------------------------------------------------------|----|
| AN EXPERIENCE WITH AUGMENTED MATH TRAILS AND SERVICE-LEARNING IN INITIAL TEACHER TRAINING..... | 77 |
| <i>Angélica Benito, Álvaro Nolla, Ariadna Gómezescobar, Elena Sánchez and Carlos Ajenjo</i>    |    |

VIRTUAL REALITY STEM TRAILS: EXPLORING MATH TRAILS WITH STEM EDUCATION  
APPROACH IN A VIRTUAL WORLD ..... 85  
*Adi Nur Cahyono*

LEARNING BY TEACHING WITH VIDEOS - AN INTEGRATION STRATEGY TO PROMOTE  
MATHEMATICAL COMMUNICATION AMONG STUDENTS OF HIGHER EDUCATION..... 91  
*Amélia Caldeira, Sofia Lopes, Alexandra R. Costa and Isabel Figueiredo*

PROJECT LEARN+: AN OPPORTUNITY TO DEVELOP MATHEMATICS LEARNING ..... 99  
*Renata Carvalho and Claudia Lázaro*

TASKS AND LEARNING PATHS IN ASYMPTOTE AND GEOGEBRA .....107  
*José Manuel Dos Santos Dos Santos, Jaime Carvalho e Silva and Zsolt Lavicza*

DIGITAL SUPPORT OF MATHEMATICAL MODELLING: THE ROLE OF HINTS AND FEEDBACK  
IN MATHCITYMAP .....115  
*Simone Jablonski*

TEACHING COMPUTATIONAL THINKING WITH <COLETTE/> .....123  
*Rebecca S. Stäter, Tim Läufer and Matthias Ludwig*

**TOPIC 3: RESEARCH ON TEACHING AND LEARNING DURING THE COVID-19 PANDEMIC**  
..... 131

THE POSITIVE SIDE OF THE PANDEMIC, DOES IT REALLY EXIST?.....133  
*Osama Swidan*

DIGITAL LEARNING GRAPHS WITH ASYMPTOTE – STUDENTS FEEDBACK .....145  
*Amélia Caldeira, Isabel Figueiredo, Alexandra Gavina, Isabel Pinto and Ana Júlia Viamonte*

A CASE STUDY FOR THE PEDAGOGICAL EVALUATION OF THE ASYMPTOTE SYSTEM.....153  
*Georgios Fesakis, Stylianos Triantafyllou, Nikolaos Tzioufas, Despoina Koutsomanoli-Filippaki and Stamatia Volika*

ENHANCING COMPUTER SCIENCE PROJECTS WITH REMOTE TEACHING ELEMENTS.....161  
*Deng-Xin Ken Oehler, Sina Wetzel and Matthias Ludwig*

THE EFFECT OF TEACHER TRAININGS ON THE ACCEPTANCE AND PERCEPTION OF THE  
ASYMPTOTE SYSTEM .....169  
*Eugenia Taranto, Simon Barlovits, Georgios Fesakis, Stylianos Triantafyllou, Nikolaos Tzioufas, Despoina Koutsomanoli-Filippaki, Stamatia Volika, Maria Flavia Mammana and Matthias Ludwig*

**POSTERS..... 177**

TEACHING MATHEMATICS WITH ROBOTICS – A STEM PROJECT .....179  
*Amélia Caldeira, Alzira Faria, Ramiro Barbosa, Alexandra Gavina, Isabel Figueiredo and Lino Figueiredo*

THE ASYMPTOTE PROJECT: DEVELOPING AN ADAPTIVE AND SYNCHRONOUS LEARNING PLATFORM.....183  
*Deng-Xin Ken Oehler, Léon Anhalt, Simon Barlovits, Matthias Ludwig and Michael Kleine*

**WORKSHOPS..... 187**

THE ASYMPTOTE PROJECT: DEVELOPING A SYSTEM FOR ADAPTIVE AND SYNCHRONOUS ONLINE LEARNING.....189  
*Simon Barlovits, Deng-Xin Ken Oehler, Simone Jablonski and Matthias Ludwig*

MOBILE LEARNING OUTSIDE THE CLASSROOM WITH MATHCITYMAP .....193  
*Simone Jablonski, Simon Barlovits, Iwan Gurjanow, Philipp Larmann, Matthias Ludwig, Deng-Xin Ken Oehler and Sina Wetzel*

HOW <COLETTE/> FACILITATES TEACHING COMPUTATIONAL THINKING .....197  
*Rebecca S. Stäter, Tim Läufer and Matthias Ludwig*

LIST OF AUTHORS.....201
