List of Figures	11
List of Tables	13
Acknowledgments.....	17
1 Introduction	19
2 Parkinson's Disease	23
2.1 Pathology.....	24
2.1.1 Braak Staging	24
2.1.2 Basal Ganglia and the Role of Dopamine	25
2.2 Clinical Symptoms and Progression.....	28
2.2.1 Non-motor Symptoms	28
2.2.2 Motor Symptoms	29
2.3 Therapeutic Options	31
2.3.1 Drug Treatment	31
2.3.2 Deep Brain Stimulation	32
2.4 Assessing Motor Functions and Treatment Effects.....	36
2.4.1 Motor Score	36
2.4.2 Calculating the Levodopa and DBS Response	38
3 Speech Production	41
3.1 Process of Speech Production	41
3.2 Articulatory Speech Movements.....	43
3.2.1 Articulatory Phonology	43
3.2.2 Dynamical Systems	46
3.2.3 Articulatory Landmarks	48
3.2.4 Timing and Phasing	49
3.3 Modifications of Articulatory Movements	51

3.3.1 Compensation Strategies.....	53
3.3.2 Prominence Marking.....	55
4 Speech in Parkinson's Disease	63
4.1 Hypokinetic Dysarthria.....	63
4.1.1 Intelligibility and Naturalness.....	63
4.1.2 Respiratory-Phonatory Control.....	65
4.1.3 Articulation.....	67
4.1.4 Underlying Kinematics	70
4.1.5 Prosodic Characteristics	73
4.1.6 Speech Rate and Fluency	76
4.2 Development of Speech Deficits	77
4.3 Treatment Effects on Speech	79
4.3.1 Effects of Levodopa	79
4.3.2 Effects of Deep Brain Stimulation	82
4.3.3 Levodopa vs DBS	89
4.4 Research Questions	90
5 Methods.....	93
5.1 Objectives	93
5.2 Participants.....	93
5.3 Data Elicitation	95
5.3.1 Preoperative Assessment.....	97
5.3.2 Postoperative Assessment.....	97
5.4 Speech Recordings.....	99
5.4.1 Set-up.....	99
5.4.2 Speech Task and Speech Material	100
5.5 Speech Data Processing	104
5.5.1 Annotation	105
5.5.2 Measurements.....	107
5.6 Statistical Analysis.....	112

- 6 Results: Disease Effect..... 115**
 - 6.1 General Assessment115
 - 6.2 Speech Assessment116
 - 6.2.1 Speech Ratings118
 - 6.2.2 Acoustics.....118
 - 6.2.3 Articulation.....120
 - 6.3 Interim Conclusion126
- 7 Results: Levodopa Effect..... 129**
 - 7.1 Motor Assessment.....129
 - 7.2 Speech Assessment130
 - 7.2.1 Speech Ratings130
 - 7.2.2 Acoustics.....131
 - 7.2.3 Articulation.....133
 - 7.3 Correlations136
 - 7.4 Interim Conclusion137
- 8 Results: DBS Effect 139**
 - 8.1 Motor Assessment.....139
 - 8.2 Speech Assessment140
 - 8.2.1 Speech Ratings140
 - 8.2.2 Acoustics.....141
 - 8.2.3 Articulation.....142
 - 8.3 Correlations145
 - 8.4 Interim Conclusion146
- 9 Results: Levodopa vs STN-DBS 147**
 - 9.1 Motor Assessment.....147
 - 9.2 Speech Assessment147
 - 9.2.1 Speech Ratings147

9.2.2 Acoustics.....148

9.2.3 Articulation.....149

9.3 Interim Conclusion.....150

10 Results: Electrode Effect 153

10.1 General Assessment153

10.2 Speech Assessment155

10.2.1Speech Ratings155

10.2.2Acoustics155

10.2.3Articulation.....156

10.2.4Correlation158

10.3 Interim Conclusion.....159

11 Discussion 161

11.1 Disease Effect161

11.2 Levodopa Effect164

11.3 DBS Effect165

11.4 Electrode Effect167

11.5 Prominence Marking.....169

11.6 Compensation Strategies171

11.7 Variation.....173

11.8 Clinical Implications175

11.9 Limitations176

12 Conclusion..... 179

Appendix 181

A.1 Stimulation Parameters181

A.2 Neuropsychological Assessment.....182

A.3 Characteristics of Dysarthria184

A.4 Results Motor Assessment185

A.5 Levodopa Equivalent Daily Doses188
