

Contents

Fuzzy Cognitive Maps: Basic Theories and Their Application to Complex Systems	1
<i>Peter P. Groumpos</i>	
Expert-Based and Computational Methods for Developing Fuzzy Cognitive Maps	23
<i>Wojciech Stach, Lukasz Kurgan, Witold Pedrycz</i>	
A Novel Approach on Constructed Dynamic Fuzzy Cognitive Maps Using Fuzzified Decision Trees and Knowledge-Extraction Techniques	43
<i>Elpiniki I. Papageorgiou</i>	
The FCM Designer Tool	71
<i>Aguilar Jose, José Contreras</i>	
Fuzzy Cognitive Networks: Adaptive Network Estimation and Control Paradigms	89
<i>Thodoris L. Kottas, Yiannis S. Boutalis, Manoli A. Christodoulou</i>	
Modeling of Operative Risk Using Fuzzy Expert Systems	135
<i>Santiago Medina Hurtado</i>	
Fuzzy Cognitive Maps in Banking Business Process Performance Measurement	161
<i>George Xirogiannis, Michael Glykas, Christos Staikouras</i>	
Fuzzy Cognitive Maps-Based IT Projects Risks Scenarios	201
<i>Jose L. Salmeron</i>	
Software Reliability Modelling Using Fuzzy Cognitive Maps	217
<i>Panagiotis Chytas, Michael Glykas, George Valiris</i>	

Fuzzy Cognitive Networks for Maximum Power Point Tracking in Photovoltaic Arrays	231
<i>Thodoris L. Kottas, Athanasios D. Karlis, Yiannis S. Boutalis</i>	
Fuzzy Cognitive Maps Applied to Computer Vision Tasks ...	259
<i>Gonzalo Pajares, María Guijarro, P. Javier Herrera, José J. Ruz, Jesús M. de la Cruz</i>	
Classifying Patterns Using Fuzzy Cognitive Maps.....	291
<i>G.A. Papakostas, D.E. Koulouriotis</i>	
Dynamic Fuzzy Cognitive Maps for the Supervision of Multiagent Systems	307
<i>Aguilar Jose</i>	
Soft Computing Technique of Fuzzy Cognitive Maps to Connect Yield Defining Parameters with Yield in Cotton Crop Production in Central Greece as a Basis for a Decision Support System for Precision Agriculture Application	325
<i>E.I. Papageorgiou, A.T. Markinos, T.A. Gemtos</i>	
Analysis of Farmers' Concepts of Environmental Management Measures: An Application of Cognitive Maps and Cluster Analysis in Pursuit of Modelling Agents' Behaviour	363
<i>Livia Ortolani, Neil McRoberts, Nicholas Dendoncker, Mark Rounsevell</i>	
Using Fuzzy Cognitive Maps to Support the Analysis of Stakeholders' Views of Water Resource Use and Water Quality Policy	383
<i>Alkis Kafetzis, Neil McRoberts, Ioanna Mouratiadou</i>	
Fuzzy Cognitive Map to Support Conflict Analysis in Drought Management	403
<i>R. Giordano, M. Vurro</i>	
Author Index	427
