1 Technological Support for Cooperation

<i>T. Rodden</i>	1
1.1 Information Exchange	2
1.1.1 Speech Act Systems.....	4
1.1.2 Office Procedure Systems	5
1.1.3 Semi-structured Message Systems.....	6
1.2 Information Sharing.....	9
1.2.1 Textual Conferencing Facilities	10
1.2.2 Multi-user Hypertext	13
1.2.3 Real-Time Conferencing Systems	15
1.2.4 Desktop Conferencing	16
1.2.5 Multimedia Conferencing	18
1.3 Electronic Meeting Systems	19
1.4 Summary	21

2 User Interfaces for CSCW Systems

<i>J. Brooke</i>	23
2.1 Introduction	24
2.2 The "Personal" Model of Computing	24
2.2.1 Mine, All Mine – But Do I Want It?	24
2.2.2 Throwing Information Over the Wall	25
2.2.3 It's Yours; You Look After It.....	25
2.3 Applications versus Appropriate Systems.....	26
2.3.1 Software as Product	26
2.4 CSCW: Imposition of Common Methods of Working or Facilitation of Cooperative Working?	27
2.4.1 Access to Shared Information: Each to His Own.....	27

2.4.2 Cooperation: My Way.....	27
2.4.3 Piling Complexity upon Complexity	28
2.4.4 Groups Change As Well As Individuals.....	29
2.5 Implications for CSCW Interfaces.....	29
3 Groupware Interfaces	
<i>B. Hewitt and G.N. Gilbert</i>	31
3.1 Some Standard Interface Design Guidelines.....	32
3.2 Designing for Groups	33
3.3 Groupware Interface Issues	34
3.3.1 Be Consistent.....	34
3.3.2 Provide Feedback	35
3.3.3 Use the User's Model	35
3.3.4 User-Centred Control	35
3.3.5 Use Metaphors	36
3.4 Additional Design Issues for Groupware Interfaces.....	36
3.4.1 Focus.....	36
3.4.2 Concurrency	37
3.5 Conclusion.....	37
4 CSCW For Real: Reflections on Experience	
<i>G.N. Gilbert</i>	39
4.1 BLEND: The Pioneering Spirit	40
4.2 European Collaboration	43
4.3 Diplomacy	45
4.4 Some Reflections.....	48
4.5 Conclusion.....	50
5 Adding a Little Structure to Collaborative Writing	
<i>M. Sharples</i>	51
5.1 CSCW and Premature Commitment	52
5.2 The Process of Collaborative Writing.....	53
5.3 Strategies for Collaborative Writing.....	54
5.3.1 Parallel	54
5.3.2 Sequential	55
5.3.3 Reciprocal	55
5.4 Adding Structure to Collaborative Writing.....	56
5.4.1 Scheduling.....	56
5.4.2 Coordination.....	58
5.4.3 Constraints	60
5.4.4 Intentions.....	61
5.5 A Case Study in Collaborative Writing.....	62

2.4.2 Cooperation: My Way.....	27
2.4.3 Piling Complexity upon Complexity	28
2.4.4 Groups Change As Well As Individuals.....	29
2.5 Implications for CSCW Interfaces.....	29
3 Groupware Interfaces	
<i>B. Hewitt and G.N. Gilbert</i>	31
3.1 Some Standard Interface Design Guidelines.....	32
3.2 Designing for Groups	33
3.3 Groupware Interface Issues	34
3.3.1 Be Consistent.....	34
3.3.2 Provide Feedback	35
3.3.3 Use the User's Model.....	35
3.3.4 User-Centred Control	35
3.3.5 Use Metaphors.....	36
3.4 Additional Design Issues for Groupware Interfaces.....	36
3.4.1 Focus.....	36
3.4.2 Concurrency.....	37
3.5 Conclusion.....	37
4 CSCW For Real: Reflections on Experience	
<i>G.N. Gilbert</i>	39
4.1 BLEND: The Pioneering Spirit	40
4.2 European Collaboration	43
4.3 Diplomacy	45
4.4 Some Reflections.....	48
4.5 Conclusion.....	50
5 Adding a Little Structure to Collaborative Writing	
<i>M. Sharples</i>	51
5.1 CSCW and Premature Commitment.....	52
5.2 The Process of Collaborative Writing.....	53
5.3 Strategies for Collaborative Writing.....	54
5.3.1 Parallel	54
5.3.2 Sequential	55
5.3.3 Reciprocal	55
5.4 Adding Structure to Collaborative Writing.....	56
5.4.1 Scheduling	56
5.4.2 Coordination	58
5.4.3 Constraints	60
5.4.4 Intentions.....	61
5.5 A Case Study in Collaborative Writing.....	62

5.5.1 Guidelines.....	65
5.6 Conclusion.....	67
6 Small-Scale Collaborative Writing Using Electronic Mail	
<i>D. Diaper</i>	69
6.1 Electronic Mail	70
6.2 Authoring and Editing	71
6.2.1 Small Groups.....	73
6.2.2 Larger Groups.....	73
6.2.3 Comparing Writing Technologies.....	74
6.3 Small Group Case Study	82
6.3.1 The Case Study	82
6.3.2 Learning from the Example	87
6.3.3 CSCW Authoring System Requirements	90
6.4 Conclusion.....	91
7 HICOM as a CSCW Environment	
<i>J. Newman</i>	93
7.1 Research, Collaboration and Professional Practice	93
7.2 Computer Support for the HCI Community.....	96
7.3 Basic HICOM Concept and Technology	99
7.4 What HICOM Provides with Existing Technology.....	101
7.5 What HICOM Has Taught Us about CSCW	102
8 Using Process Technology to Support Cooperative Work: Prospects and Design Issues	
<i>D.G. Wastell and P. White</i>	105
8.1 Introduction	105
8.2 Office Automation.....	106
8.3 PSS: Process Support System.....	109
8.3.1 Background and Overview.....	109
8.3.2 Process Modelling in PML: A Hospital Example	110
8.3.3 A Process Model of Medical Office Work.....	111
8.3.4 Work in a PSS: The Electronic Medical Office.....	115
8.3.5 PSS and the Problem of Change.....	116
8.4 Current Directions: The IOPT Project.....	117
8.4.1 Tool Integration	118
8.4.2 Designing PSSs	118
8.4.3 Language-Action Based Process Modelling.....	120
8.4.4 Field Studies of Process Technology and Cooperative Work.....	122
8.5 Conclusion.....	124

9 Computer Supported Teamwork

<i>I.D. Benest and D. Dukić</i>	127
9.1 Introduction	127
9.1.1 The User Interface and Support for the Task	127
9.1.2 The User Interface and Cooperative Work.....	128
9.1.3 Scope of this Chapter	129
9.2 The Automated Office Metaphor.....	130
9.3 Role Controller.....	130
9.4 The Book Emulator	132
9.4.1 Navigation	132
9.4.2 Type of Information and its Production	133
9.4.3 Information Capture	134
9.4.4 Information from the Keyboard.....	134
9.4.5 Free-Hand Sketching, Highlighter and Multi-State Hot-Spots.....	134
9.4.6 Schematic Drawing	135
9.4.7 DrawingBoard	135
9.4.8 Shared Captured Information	136
9.4.9 Computer Conferencing.....	136
9.4.10 Teamwork Support	136
9.5 Instruments for Teamwork	137
9.5.1 White-board	138
9.5.2 Limited Discussion Meetings	140
9.5.3 Limited Discussion Meetings with Drawings.....	145
9.5.4 Meeting with a Computational Participant.....	146
9.6 Discussion.....	146
9.6.1 Problem Areas.....	147
9.7 Conclusions	149

10 The Pod: A Purpose-built Environment to Support Group Working

<i>R.R. Seward, D. Diaper and C. Sanger</i>	151
10.1 Introduction	151
10.1.1 Business Trends.....	151
10.2 Organizational Modelling.....	153
10.2.1 Pyramidal Models of Organizations	154
10.2.2 External Information	155
10.2.3 Senior Managerial Information Processing Needs	156
10.3 The Pod	158
10.3.1 The Pod's Design Concepts.....	160
10.3.2 Evaluating the Pod.....	161
10.4 Conclusion.....	162

11 Usability Trialling for CSCW Technology: Lessons from a Structured Messaging Task

<i>A. Kirkwood, S. Furner, W. Ablard, B. Clark, K. Dickerson, A. Mercer, S. O'Donnell, Y. Siu and O. Williams</i>	163
11.1 Structured Messaging	164
11.2 Cooperative Tasks Supported by COSMOS II	164
11.3 Evaluating COSMOS II	166
11.3.1 Trial Design	166
11.3.2 Trial Group	166
11.3.3 Pre-Trial Monitoring Period	167
11.3.4 User Support and Training for COSMOS II Trial Period	167
11.3.5 COSMOS II Trial Period	168
11.4 Technical Implementation	168
11.4.1 Speed of Operation	169
11.4.2 Reliability	169
11.4.3 Functionality	169
11.5 Trial Results	170
11.5.1 Questionnaire Findings	170
11.5.2 Interview Findings	170
11.6 Discussion of Trial Results	172
11.7 Lessons Learned from the COSMOS II Trial	173
11.7.1 From Demonstrators to Real Working Systems	173
11.7.2 Task Domain	173
11.7.3 Configurability of Structured Messaging Systems	174
11.7.4 Compatibility and Accessibility of Structured Messaging Systems	174
11.7.5 Management of Expectations	175
11.7.6 Risk Management	175
11.8 Recommendations	176
11.9 Conclusions	176
