

# Contents

## **Introduction — 1**

- On invention, use, and need — 1
- Orosdi-Back: from a trading company to a chain of department stores — 9
- Technologies as consumer goods, big and small — 22
- Invention and in-use — 27
- Diffusion: the Everett Rogers model — 29
- “Differential diffusion” — 30
- Delays and resistance — 34
- Leapfrogging — 38
- Four case studies — 39
- In conclusion — 44

## **1 Who needed department stores in Egypt? — 46**

- 1.1 From Orosdi-Back to Omar Effendi — 46
- 1.2 Postscript — 69

## **2 On the diffusion of “Small” Western technologies and consumer goods in the Middle East — 70**

- 2.1 “Big” and “small” — 72
- 2.2 Diffusion and the process of acquisition — 74
- 2.3 About use and need — 75
- 2.4 The sewing machine — 78
- 2.5 The typewriter — 80
- 2.6 Photographic cameras — 83
- 2.7 The piano — 85
- 2.8 Incandescent light bulbs and electric household implements — 90
- 2.9 The automobile — 93
- 2.10 Some conclusions — 96

## **3 The social history of the sewing machine in the Middle East — 97**

- 3.1 Marketing and consumption in the Middle East — 101
- 3.2 Use of the sewing machine in industry — 106
- 3.3 Home industry — 107
- 3.4 Gender aspects — 108
- 3.5 The sewing machine as a tool of development — 111

- 3.6 Ready-made clothing — 112
- 3.7 Conclusions — 114

#### **4 Leapfrogging from typewriter to personal computer in the Middle East — 116**

- 4.1 Introduction — 116
- 4.2 The typewriter's genealogy — 117
- 4.3 Techno-linguistic adaptation — 120
- 4.4 Typography and calligraphy — 128
- 4.5 From foreign use to local business — 130
- 4.6 Typing (dactylography) and shorthand (stenography) as ancillary skills — 132
- 4.7 From early adopters to an early majority: another time chasm — 134
- 4.8 No local typewriter celebrities — 138
- 4.9 Transitions: QWERTY and Turkey, and de-colonization in Egypt — 139
- 4.10 The slow emergence of indigenous female typists and office workers — 142
- 4.11 Leapfrogging to the personal computer — 148

#### **5 From Ibn Haitham to Abou Naddara and Al-Misri Effendi: eyeglasses in the Middle East — 151**

- 5.1 Evolution in Europe — 153
- 5.2 Why did the Middle East not have them before Europe? — 157
- 5.3 A small technology known to select elites — 159
- 5.4 From "knowledge" to "persuasion" — 166
- 5.5 Lesser prevalence of visual disabilities? — 167
- 5.6 The use and the marketing of eyeglasses in the Middle East — 169
- 5.7 Photographic evidence — 175
- 5.8 Ophthalmology — 176
- 5.9 Iconic figures — 180
- 5.10 Some conclusions — 185

#### **6 Did the piano have a chance in the Middle East? — 187**

- 6.1 A short history of the piano — 189
- 6.2 *Maqams* and notation — 191
- 6.3 *Alla Turca* and other orientalisms — 193
- 6.4 When did modern pianos begin to reach the Middle East? — 194
- 6.5 Missionaries, colonial officers, and diplomats — 202
- 6.6 Trickle down? — 206
- 6.7 Further diffusion — 211

- 6.8 Statistics — **214**
- 6.9 An “oriental piano” for the Middle East? — **216**
- 6.10 The Arab Music Congress of Cairo in 1932 — **221**
- 6.11 Piano education — **227**
- 6.12 Edward Said — **229**
- 6.13 An acoustic “glass bottom”? — **231**
- 6.14 Conclusions — **235**

**Bibliography — 240**

- Books and articles — **240**
- Some periodicals — **260**
- Diverse yearbooks and reports — **260**
- Archives — **261**
- Selected online sources — **261**

**List of Figures — 263**

**Index of proper names — 265**

**Index of geographical names — 269**

**Index of subjects — 272**
