Preface — V

Foreword — VII

A brief professional profile of Prof. Anil Kumar Singh — XIII

List of contributors — XIX

Ali Bodaghi, Ali Ramazani, and Zeinab Rafiee

Chapter 1

Microwave-assisted catalyst-free synthesis of bioactive heterocycles — 1

Chetna Ameta Dharmendra, Yogeshwari Vyas, Purnima Chaubisa, Abhilasha Jain, and Suresh C. Ameta

Chapter 2

Microwave-assisted synthesis of *N*-heterocycles — 33

Rajib Sarkar and Chhanda Mukhopadhyay

Chapter 3

Microwave-assisted synthesis of *O,S*-heterocycles — 69

Yadavalli Venkata Durga Nageswar, Katla Ramesh, and Katla Rakhi

Chapter 4

Ultrasound-assisted synthesis of *N*-heterocycles — 95

Garima Ameta, Rakshit Ameta, Seema Kothari, and Suresh C. Ameta

Chapter 5

Ultrasound-assisted synthesis of *O,S*-heterocycles — 129

Bubun Banerjee, Aditi Sharma, Anu Priya, Manmeet Kaur, and Arvind Singh

Chapter 6

Ultrasound-assisted synthesis of bioactive 1,2,3-triazoles via click reactions — 151

Prabhakar Chetti, Vipin Kumar, and V. Jayathirtha Rao

Chapter 7

Photoirradiated synthesis of bioactive heterocycles — 173

Poulami Hota, Prasenjit Das, Rajjakfur Rahaman, and Dilip K. Maiti

Chapter 8

Synthesis of heterocycles through electrolysis — 209

Moumita Saha and Asish R. Das

Chapter 9

Flow synthesis of oxygen and nitrogen heterocycles — 261

Sabir Ahammed, Sandipan Ghosal, and Brindaban C. Ranu

Chapter 10

Ball-milling-promoted synthesis of bioactive heterocycles — 287

Sabbasani Rajasekhara Reddy, Neelima D. Tangellamudi, Bhulakshmi Sathi, Sridhar P., and Adinarayana Doddi

Chapter 11

Synthesis of bioactive heterocycles via click reaction — 307

Prasenjit Das, Poulami Hota, Rajjakfur Rahaman, and Dilip K. Maiti

Chapter 12

Synthesis of bioactive heterocycles by nanocatalysis — 337

Hélène Pellissier

Chapter 13

Enantioselective metal-catalyzed domino reactions in the total synthesis of bioactive heterocycles — 375

Lukas M. Jacobsen, Roberto Tallarita, Siva S. M. Bandaru, and Carola Schulzke

Chapter 14

Synthesis of pharmacologically significant pentathiepins: a journey from harsh to mild conditions — 403

György Keglevich

Chapter 15

Developments in the synthesis of ring phosphine oxides — 467

Sabbasani Rajasekhara Reddy, Sathi Bhulakshmi, and Sanjivani pal

Chapter 16

Total synthesis of bioactive heterocyclic scaffolds via Pauson Khand reaction — 489

Shashi Kiran Misra and Kamla Pathak

Chapter 17

Nonconventional approaches in drug discovery — 517

Index — 551
