Foreword	xii
Preface	xiii
Contributors	xv
1 The Male Aesthetic Patient: Preferences and Practice	1
<i>Jeremy B. Green, Terrence C. Keaney, Sebastian Cotozana, and Mildred Lopez-Pineiro</i>	
1.1 Background	1
1.2 Anatomy	1
1.3 Patient Preferences	1
1.4 Clinical Practice	3
1.5 Conclusion	4
1.6 Pearls	4
References	5
2 Tincture of Time: Facial Aging and Anatomical Considerations	6
<i>Jose Raúl Montes and Jonathan J. Dutton</i>	
2.1 Background	6
2.2 Male Facial Anatomy and Aging Changes	6
2.2.1 Aging and Gender	6
2.2.2 Forehead and Temple	7
2.2.3 Eyelids and Periorbital Region	10
2.2.4 Midface Anatomy and Aging	14
2.2.5 Jawline and Lower Face	15
2.2.6 Hairline and Male Pattern Hair Loss	16
2.3 Conclusion	16
2.4 Pearls	17
References	19
3 Taking a Hard Look: Soft Tissue Augmentation	22
<i>Shino Bay Aguilera, Cameron Chesnut, Michael B. Lipp, and Luis Soro</i>	
3.1 Background	22
3.2 Facial Dimorphisms	22
3.3 The Aging Face	23
3.3.1 Upper Third	23
3.3.2 Midface (Middle Third)	25
3.3.3 Lower Face	28
3.3.4 Pan Facial Revolumization with Poly-L-Lactic Acid	29
3.4 Complications	30
3.5 Conclusion	32
3.6 Pearls	32
References	33
4 High Brow Approach to Neuromodulators	35
<i>Edith A. Hanna, Matthew K. Sandre, and Vince Bertucci</i>	
4.1 Background	35
4.1.1 Motivation	35
4.1.2 Demographics	35
4.2 Anatomy	35

4.2.1	Assessment of the Face	35	4.3.5	Other Facial Uses	42
4.3	Approach.	38	4.3.6	Scrotal Wrinkling	44
4.3.1	Forehead and Brow	38	4.4	Approved Indications and Dosing	44
4.3.2	Glabella	40	4.5	Pearls	48
4.3.3	Lateral Canthus	41		References	48
4.3.4	Masseters	42			
5	Following the Pattern: Hair Restoration	50			
	<i>Nicole Rogers and Marisa Belaidi</i>				
5.1	Background	50	5.6.3	Surgical Anesthesia	56
5.2	Diagnosis.	50	5.6.4	Donor Ellipse Harvesting	56
5.3	Mimickers of Male Pattern Hair Loss . .	51	5.6.5	Follicular Unit Excision Harvesting	58
5.4	Treatment of Hair Loss	52	5.6.6	Graft Storage	59
5.4.1	Nonsurgical Options for Hair Loss	52	5.6.7	Hairline Design	59
5.4.2	FDA-Approved Nonsurgical Options	52	5.6.8	Creation of Graft Sites	60
5.4.3	Off-Label Nonsurgical Options	54	5.6.9	Graft Placement	60
5.5	Choice of Nonsurgical Therapy	55	5.6.10	Post-Op Care	61
5.6	Surgical Options for Hair Loss.	55	5.6.11	Special Situations	61
5.6.1	Consultation and Candidate Selection	55	5.6.12	Camouflage	61
5.6.2	Methods of Harvesting	56	5.6.13	Scalp Micropigmentation	61
5.7	Conclusion	62			
5.8	Pearls	63			
	References	63			
6	Finding the Right Balance: Chemical Peels	64			
	<i>Jeave Reserva, Rebecca Tung, and Seaver Soon</i>				
6.1	Background	64	6.4	Procedures	74
6.2	Chemical Peels and the Male Skin	64	6.4.1	Salicylic Acid Peel	74
6.2.1	Peeling Mechanisms and Classification . . .	64	6.4.2	Glycolic Acid Peel	75
6.2.2	Gender-Linked Skin Differences Relevant to Chemical Peeling	65	6.4.3	Trichloroacetic Acid and Combination Medium-Depth Peels	76
6.2.3	Men and Extrinsic Factors Relevant to Chemical Peeling	66	6.4.4	Chemical Reconstruction of Skin Scars Technique	77
6.2.4	Peel Considerations in Sexual Minority Men	67	6.4.5	Phenol Croton-Oil Peel	78
6.3	Approach.	69	6.4.6	Combination of Chemical Peeling with Other Minimally Invasive Procedures	79
6.3.1	Indications	69	6.5	Complications	80
6.3.2	Prepeel Consultation	70	6.6	Conclusion	80
6.3.3	Prepeel Skin Conditioning	71	6.7	Pearls	80
6.3.4	Postpeel Skin Care	73		References	81

7	The Tech Sector: Lasers, Light, and Energy Devices	85
	<i>Yiping Xing, Derek Hsu, Murad Alam, and Jeremy A. Brauer</i>	
7.1	Background	85
7.2	Anatomy and Physiology	85
7.3	Introduction to Lasers	86
7.3.1	Resurfacing Lasers	86
7.3.2	Ablative Resurfacing Lasers	86
7.3.3	Nonablative Resurfacing Lasers	87
7.4	Pigmentation	88
7.4.1	Laser Hair Removal	88
7.4.2	Tattoo Removal	89
7.5	Pigmented Lesions	90
7.6	Vascular Lasers	91
7.7	Intense Pulsed Light	92
7.8	Conclusion	92
7.9	Pearls	92
	References	92
8	Keg to Six Pack: Fat and Cellulite Treatments	96
	<i>Deanne Mraz Robinson and Daniel P. Friedmann</i>	
8.1	Background	96
8.2	Anatomy	96
8.3	Approach	97
8.4	Procedure	97
8.4.1	Cryoadipolysis	97
8.4.2	High-Intensity Focused Ultrasound	98
8.4.3	Nonthermal Focused Ultrasound	98
8.4.4	High-Intensity Focused Electromagnetic Field Therapy	98
8.4.5	Radiofrequency	98
8.4.6	Low-Level Laser Therapy	98
8.4.7	Infrared Diode Laser	99
8.4.8	Injection Adipolysis	99
8.4.9	Tumescent Liposuction	99
8.5	Before and After Examples	100
8.5.1	Case 1: Tumescent Liposuction of the Male Chest	100
8.5.2	Case 2: Tumescent Liposuction of the Male Abdomen, Waist, and Flanks	100
8.5.3	Case 3: Cryoadipolysis of Male Flanks	100
8.5.4	Case 4: High-Intensity Focused Electromagnetic Therapy of Upper Abdomen	101
8.5.5	Case 5: Cryoadipolysis of Male Outer Thighs	101
8.6	Conclusion	101
8.7	Pearls	102
	References	102
9	Not too Tight: Skin Tightening Procedures	105
	<i>Jordan V. Wang, Nazanin Saedi, and Girish S. Munavalli</i>	
9.1	Background	105
9.2	Indications	106
9.3	Patient Selection	106
9.4	Treatment Options	107
9.4.1	Microneedling	107
9.4.2	Radiofrequency	107
9.4.3	Radiofrequency Microneedling	108
9.4.4	Ultrasound	108
9.5	Postprocedural Expectations	109
9.6	Adverse Events	110
9.7	Conclusion	110
9.8	Pearls	110
	References	111

10	Aesthetic Concerns in Skin of Color Patients	113		
	<i>Andrew Alexis and Michelle Henry</i>			
10.1	Background	113	10.5	Hair Restoration
10.1.1	Anatomy and Physiology of Ethnic Skin. . .	113	10.5.1	Approach
10.2	Managing Hyperpigmentation	114	10.5.2	Traction Alopecia.
10.2.1	Chemical Peels	115	10.5.3	Central Centrifugal Cicatricial Alopecia . . .
10.2.2	Laser Treatments	115	10.5.4	Lichen Planopilaris
10.3	Laser Hair Removal	116	10.5.5	Hair Transplantation
10.4	Injectable Fillers and Neuromodulators	116	10.6	Conclusion
10.4.1	Approach	116	10.7	Pearls
10.4.2	Procedure	117		References
11	Aesthetic Concerns in Transgender Patients	123		
	<i>Yunyoung C. Chang and Jennifer L. MacGregor</i>			
11.1	Background	123	11.3.2	Role of Dermatologists and Other Medical Providers.
11.1.1	Epidemiology of the Transgender Population	123	11.3.3	Patient Preferences
11.2	Gender Transitioning	123	11.4	Available Procedures and Illustrative Examples
11.2.1	Overview: Medications and Surgical Procedures for Gender Transition	123	11.4.1	Transgender Men (Female to Male Transition)
11.2.2	Quality of Life Relating to Gender Identity and Aesthetic Procedures	125	11.4.2	Transgender Women (Male to Female Transition)
11.2.3	Barriers to Care	125	11.4.3	Nonbinary Gender Status
11.3	Improving Aesthetic Care through Minimally Invasive Aesthetic Procedures	127	11.5	Conclusion
11.3.1	Minimally Invasive Aesthetic Procedures. . .	127	11.6	Pearls
				References
12	Bringing it All Home: Conclusions and Future Considerations	135		
	<i>Brian P. Hibler, Merrick A. Brodsky, Andrés M. Erlandsson, and Anthony M. Rossi</i>			
12.1	Background	135	12.3.1	Cosmetic Consultation
12.2	Anatomy	135	12.3.2	Combination Therapeutic Approach.
12.2.1	The Skin	135	12.4	Procedures
12.2.2	Facial Features	135	12.4.1	Soft-Tissue Augmentation
12.2.3	Body Contouring	136	12.4.2	Neuromodulation
12.3	Approach to Aesthetic Procedures in the Male Patient	137	12.4.3	Hair Restoration
			12.4.4	Chemical Peels
			12.4.5	Lasers, Light, and Energy Devices
			12.4.6	Fat and Cellulite Treatments

12.4.7	Skin Tightening Procedures	141	12.6	Conclusion	142
12.4.8	Skin Care.....	141	12.7	Pearls	142
12.5	Future Considerations	141		References.....	142
