Kindness in Contemporary Psychological Research – The Empirical Evidence and Clinical Practice	48
Part two: Around Meaning. Conceptualization of Kindness – Research Project	61
Research Methodology	61
Justification of the Research Problem	61
Aim and Main Problem of the Study	63
Research Plan and Stages	63
Operationalization of Variables	64
Kindness survey – open-ended questions	65
Kindness survey – closed questions	66
Study Procedure, Survey organization, and Sampling	70

Testing procedure	70
Selection of participants for the study	70
Organization of the research	71
Scheme of Statistical Data Analysis and Methods of Statistical	
Description	71
Methods of statistical description	71
Methods for assessing the significance of differences	71
Methods for assessing the strength of the relationship between	
variables	72
Qualitative analysis methods	72
Methods for managing missing data	73
Analysis and Conclusions of the Study	73
Characteristics of the Study Sample	73
Analysis of Quantitative Data	74
Kindness vs. caring	74
Kind behavior	77
Sources of kindness	77
Kindness-shaping environments	78
Motivations for kindness	79
Benefits of kindness	81
The effects of kindness	86
Giver's experiences	90
Recipient's experiences	93
Kindness is ... – Analysis of Qualitative Data	100
Word-level analyses	101
Code-level analyses	110
Research Summary	118
Closing remarks	129
References	133
