

CONTENT

1. **Saltwater Properties and Composition**
Dr. Stefan Panglisch, IWW, Germany
presented by Edgar Fischer, WasserSystemTechnik, Germany
2. **Design: Membrane Module Concepts**
Dr. Stefan Panglisch, IWW, Germany
*presented by Hans-Ulrich Baldes, WWWS AG, Germany*___
3. **Design of Seawater Distillation Plants**
Dr. Heike Glade, University Bremen, Germany
Dr. Markus Spinnler, TU Munich, Germany
4. **The TUM Desal Challenge**
Dr. Markus Spinnler, TU Munich, Germany
5. **Regulatory Approach for Discharge Permit**
Dr. Tobias Bleninger, Institute for Hydromechanics, University Karlsruhe
presented by Claus R. Mertes, DME GmbH, Germany
6. **Egyptian Laws and Regulations Waste Water / Pollution**
(Air + Ground) / Noise Protection
7. **Environmental Impact Assessment (EIA)**
Claus R. Mertes, Pöyry Deutschland GmbH
8. **Membrane Fouling and Scaling**
Edgar Fischer, WasserSystemTechnik, Germany
9. **Seawater Intakes for RO**
Mogens M. Heimerzheim, Taprogge GmbH, Germany
10. **Pre-Treatment to RO using Innovative UF Technology**
Ralf Krüger, inge AG, Germany

- 11. Hydraulic Core Systems in RO Plants**
Timo Ansbach, KSB AG, Germany
- 12. Materials and Corrosion**
Claus R. Mertes, DME GmbH, Germany
- 13. Post-Treatment and Concentrate Disposal Options**
Dr. Stefan Panglisch, IWW, Germany
presented by Edgar Fischer and Hans-Ulrich Baldes
- 14. Concentrating Solar Power (CSP) for Thermal Desalination Technologies**
Claus R. Mertes, Pöyry Deutschland GmbH, Germany
- 15. Small Desalination Plants**
Dr. Hendrik Müller-Holst, fischer eco solutions GmbH, Germany
Presented by Claus R. Mertes, DME GmbH, Germany
- 16. Interactive Stage Evaporation Technology by Terrawater (I.S.E.T.T.) for Solar driven Desalination**
Nicolas Heyn, Terrawater GmbH
- 17. SWRO Process Applications and Practical Experiences**
Hans-Ulrich Baldes, WWWS AG
- 18. CV**
