Part I Introduction: About This Dissertation

1	Motivation	3
1.1	The Importance of Spaces for Physical Interaction	3
1.2	Modern Physical Interaction Spaces	4
1.3	A Review of Literature on PIPs	8
1.3.1	Literature review: Innovation PIPs	8
1.3.2	Literature Review: Workplace PIPs	9
1.3.3	Literature Review: Retail PIPs	10
1.4	Framing the Research Problem	11
1.5	The Author's Motivation for the Thesis	13
2	Research Questions	15
3	Research Paradigm and Research Design	19
3.1	A Pragmatist Stance	19
3.2	The Engaged-scholarship Approach	21
3.3	Overall Research Design	22
3.3.1	Part III: Starting from Scratch	24
3.3.2	Part IV: From Scratchboard to Opening	25
3.3.3	Part V: Managing Continuous Innovation	25
3.3.4	Part VI: A Toolkit for Designing PIPs	26
4	Structure of the Thesis	29

**Part II Theoretical Foundations: Key Concepts of This
Dissertation**

5 Objectives and Structure 35

6 Interaction as the Locus of Value Creation 37

 6.1 Service-Dominant-Logic as a Perspective on Value
 Creation 37

 6.2 Platforms as a Novel Perspective on Value Creation 39

7 Platforms and Platform Business Models 43

 7.1 A Definition of the Term Platform 43

 7.2 The Platform Business Model 44

 7.3 The Platform Lifecycle 45

8 Designing Platforms 49

 8.1 Strategies for Platform Design 49

 8.2 An Introduction to Design Theory 51

 8.3 Implications of Design Theory for Platform Design 52

9 Summary of Key Concepts 55

**Part III Starting from Scratch: A Taxonomy to Identify Design
Elements of PIPs**

10 Objectives and Structure 59

11 Research Approach: Taxonomy Development 63

 11.1 Preliminary Instructions 65

 11.2 Taxonomy Development Process 67

 11.3 Evaluation Approach 68

12 Taxonomy Development Process 71

 12.1 Iteration 1: Conceptual to Empirical 71

 12.2 Iteration 2: Empirical to Conceptual 73

 12.3 Iteration 3: Conceptual to Empirical 74

 12.4 Iteration 4: Conceptual to Empirical 75

 12.5 Iteration 5: Empirical to Conceptual (Evaluation
 with Experts) 77

 12.6 Completion of the Iterative Development Process 79

13	The Taxonomy of Physical Interaction Platforms	81
13.1	Physical Architecture	81
13.1.1	Engagement	81
13.1.2	Position	82
13.1.3	Accessibility to the public	82
13.2	Platform Actors	82
13.2.1	Actor Segments	82
13.2.2	Industry Focus	82
13.3	Key Value Propositions	84
13.3.1	Platform Role	84
13.3.2	Core Activity	84
13.3.3	Monetary Incentives (to Platform Actors)	85
13.3.4	Non-monetary Incentives (to Platform Actors)	85
13.4	Value creation	85
13.4.1	Platform Ecosystem: Ecosystem Dimension	85
13.4.2	Platform Ecosystem: Platform Sides	86
13.4.3	Governance: Owner	86
13.4.4	Governance: Intellectual Property Control	87
13.4.5	Governance: Content Control	87
13.5	Revenue Logic	87
13.5.1	Profit Orientation	88
13.5.2	Pricing Policy	88
13.5.3	Revenue Mechanism	88
13.5.4	Key Performance Indicator	89
14	Application of the PIP Taxonomy	91
14.1	Illustrative Case: Open Innovation Lab	91
14.1.1	Classification of Physical Architecture of the JOSEPHS OI Lab	92
14.1.2	Classification of Platform Actors of the JOSEPHS OI Lab	92
14.1.3	Classification of Key Value Propositions of the JOSEPHS OI Lab	94
14.1.4	Classification of Value Creation of the JOSEPHS OI Lab	94
14.1.5	Classification of Revenue Logic of the JOSEPHS OI Lab	94

14.2	Illustrative Case: Co-working Space	95
14.2.1	Classification of Physical Architecture of a WeWork Co-working Space	95
14.2.2	Classification of Platform Actors of a WeWork Co-working Space	95
14.2.3	Classification of Key Value Propositions of a WeWork Co-working Space	97
14.2.4	Classification of Value Creation of a WeWork Co-working Space	97
14.2.5	Classification of Revenue Logic of a WeWork Co-working Space	97
15	Discussion and Implications	99
16	Summary and Outlook	103
 Part IV From Scratchboard to Opening: An Action Research Study to Explore the Design Process of PIPs		
17	Objectives and Structure	107
18	Research Approach: Action Research	109
18.1	The Case Context: The European Energy Forum (EUREF)	110
18.2	The Case: Fraunhofer ENIQ	111
18.3	Research Process	111
18.4	Data Collection	113
19	First Action Research Cycle: Concept Development	115
19.1	Diagnosis Phase	115
19.2	Planning-action Phase	117
19.3	Taking-action Phase	119
19.4	Evaluating-action Phase	120
20	Second Action Research Cycle: Implementation	123
20.1	Diagnosis Phase	123
20.1.1	Ownership of the PIP	123
20.1.2	Implementation	124
20.2	Planning-action Phase	124
20.2.1	Ownership of the PIP	124
20.2.2	Implementation	125

20.3	Taking-action Phase	125
20.3.1	Ownership of the PIP	125
20.3.2	Implementation	126
20.4	Evaluating-action Phase	128
21	Discussion and Contributions	131
21.1	Discussion: Crossing the Chasm in Building PIPs	131
21.2	Contribution: A Structured Approach for Building PIPs	134
21.3	Contribution: A Revised Process for Building PIPs	136
22	Summary and Outlook	139
 Part V Managing Continuous Innovation: A Multiple-Case Study to Explore the Sustainable Innovation of PIPs		
23	Objectives and Structure	143
24	Research Background	145
24.1	The Effect of the COVID-19 Crisis on Retail	145
24.2	Approaches for Tackling Crises	146
24.3	Innovation and the COVID-19 Crisis	147
24.4	Business Model Innovation	148
24.5	Risks Associated with BMI	150
25	Research Approach: Multiple-Case Study	151
25.1	Research Context	152
25.2	Research Design	152
25.3	Data Collection	154
25.4	Data Analysis	155
25.5	Case Descriptions	156
26	Findings	159
26.1	Retailers Only Changed the Value Chain Element of Their Business Model to Persevere Through the Crisis	159
26.2	Intensification or Improvisation: Two Approaches to Changing the Value Chain	162
26.3	Changes Made to the Value Chain Were Not Sustainable and Purely Used to Overcome the Crisis	166
26.4	Retailers in This Study Showed Difficulties in Implementing Innovation, Not Only Generating Ideas But Realising Them	168

27	Discussion and Implications	171
27.1	Perseverance as Main Strategic Response to the COVID-19 Crisis	171
27.2	No Complex Business Model Innovation Resulting from the COVID-19 Crisis	172
27.3	Scarce Resources Limited the Retailers' Ability to Innovate	172
27.4	No Sustainable Innovation From the COVID-19 Crisis	173
27.5	Managerial Implications	174
27.5.1	Managerial Implications for Retail Innovation	174
27.5.2	Design Principles for Sustainable PIP Design	175
28	Summary and Outlook	177
 Part VI A Toolkit for Designing PIPs: An Action Research Study to Apply and Evaluate this Dissertation's Insights		
29	Objectives and Structure	181
30	The Toolkit for Designing PIPs	183
31	Research Approach	187
31.1	Evaluation Approach: Action Research	188
31.2	Evaluation Criteria	189
31.3	The Action Research Context: Building a Future Retail Store	189
31.4	Demonstration and Evaluation Process	190
31.5	Data Collection	190
32	First Action Research Cycle	193
32.1	Diagnosing Phase	193
32.2	Planning-action Phase	193
32.3	Taking-action Phase	194
32.4	Evaluating-action Phase	200
33	Second Action Research Cycle	203
33.1	Diagnosis Phase	203
33.2	Planning-action Phase	203
33.3	Taking-action Phase	205
33.4	Evaluating-action Phase	206
34	Discussion and Implications	209

35	Summary and Outlook	211
 Part VII Reflections and Conclusion: Designing Physical Interaction Platforms		
36	Objectives and Structure	215
37	Summary of Parts I–VI	217
37.1	Summary of Part I	217
37.2	Summary of Part II	218
37.3	Summary of Part III	219
37.4	Summary of Part IV	222
37.5	Summary of Part V	224
37.6	Summary of Part VI	225
38	Limitations and Future Research	229
39	Final Reflection	233
