

Table of Contents

Selected Decision Problems for Square-Refinement Collage Grammars	1
<i>Frank Drewes</i>	
Weighted Tree Automata over Valuation Monoids and Their Characterization by Weighted Logics	30
<i>Manfred Droste, Doreen Götze, Steffen Mürcker, and Ingmar Meinecke</i>	
Partial Conway and Iteration Semiring-Semimodule Pairs	56
<i>Zoltán Ésik</i>	
Kleene Theorem in Partial Conway Theories with Applications	72
<i>Zoltán Ésik and Tamás Hajgató</i>	
Rational Transformations and a Kleene Theorem for Power Series over Rational Monoids	94
<i>Ina Fichtner and Christian Mathissen</i>	
Equational Weighted Tree Transformations with Discounting	112
<i>Zoltán Fülöp and George Rahonis</i>	
Quantum Automata Theory – A Review	146
<i>Mika Hirvensalo</i>	
Graph Automata: The Algebraic Properties of Abelian Relational Graphoids	168
<i>Antonios Kalampakas</i>	
A Survey on Picture-Walking Automata	183
<i>Jarkko Kari and Ville Salo</i>	
Identity Problems, Solvability of Equations and Unification in Varieties of Semigroups Related to Varieties of Groups	214
<i>Ondřej Klíma and Libor Polák</i>	
Algebraic Systems and Pushdown Automata	228
<i>Werner Kuich</i>	
Where Automatic Structures Benefit from Weighted Automata	257
<i>Dietrich Kuske</i>	

Survey: Weighted Extended Top-Down Tree Transducers: Part III —
Composition 272
 Aur lie Lagoutte and Andreas Maletti

Valuations of Weighted Automata: Doing It in a Rational Way 309
 Ingmar Meinecke

Selected Combinatorial Properties of Random Intersection Graphs 347
 Sotiris Nikolettseas, Christoforos Raptopoulos, and Paul G. Spirakis

Author Index 363
