Preface v

Introduction to the eye team and their instruments vi

1 Medical history 1

Table 1 – Common chief complaints 1

Medical illness 3

Medications (ocular side effects) 4

Family history of eye disease 7

2 Measurement of vision and refraction 9

Visual acuity 9

Optics 10

Refraction 14

Contact lenses 18

Common problems 21

Refractive surgery 21

3 Neuro-ophthalmology 28

Eye movements 28

Table 2 – Extraocular muscles 30

Table 3 – Nerves to ocular structures 30

Strabismus 31

Table 4 – Types of eye-turn 32

Table 5 – Comparison of paralytic and nonparalytic strabismus 36

Cranial nerves III–VIII 37

Nystagmus 41

Common brain tumors 47

The pupil 49

Adie's pupil (tonic pupil) 51

Visual field testing 52

Table 6 – Causes of small (miotic) and large (mydriatic) pupil (Fig. 125) 53

Color vision 56

Circulatory disturbances affecting vision 56

Table 7 – Visual disturbances due to compromised blood flow (Fig. 81) 58

4 External structures 61

Lymph nodes 61

Lacrimal system 61

Failure of the tear to reach the puncta 68

Obstruction at the puncta or canaliculus 68

Tearing due to NLD obstructions 69

Table 8 – Common topical anti-infectives 70

Lids 71

Lashes 74

Phakomatoses 77

Anterior and posterior blepharitis 78

5 The orbit 83

Imaging 83

Sinusitis 84

Exophthalmos 87

Enophthalmos 88

6 Slit lamp examination 91

Cornea 91

Corneal epithelial disease 93

Table 9 – Superficial punctate keratitis (commonly causes photophobia) 94

Table 10 – Conjunctivitis - redness more pronounced in peripheral conjunctiva (see Figs 305 and 395) 96

Corneal endothelial disease 100

Corneal transplantation (keratoplasty) 102

Conjunctiva 108

Sclera 114

7 Glaucoma 117

Glaucoma vs. glaucoma suspect 118

The iridocorneal angle 119

The optic disk (optic papilla) 120

Signs of nerve fiber damage 122
Medical treatment (Table 11) 125
Table 11 – Common glaucoma medications and side effects 126
Table 12 – Common types of glaucoma 134

8 Uvea 137

Malignant uveal tumors 139
Inflammation of the uvea (uveitis) 142
Table 13 – Common causes of an injected conjunctiva (Fig. 395) 144
Anti-inflammatories 144
Table 14 – Ocular Anti-inflammatories (see Fig. 367) 145
Table 15 – Topical Anticholinergics 147
Table 16 – Causes of Uveitis 148

9 Cataracts 158

Laser-assisted cataract surgery 163
Some complications of cataract surgery 165

10 The retina and vitreous 168

Retinal anatomy 168
Fundus examination 171
Table 17 Scheie classification of hypertensive retinopathy (see Fig. 486) 179
Table 18 – Blood sugar levels in diabetes 186
Age-related macular degeneration 188
Central serous chorioretinopathy 192
Pseudoxanthoma elasticum 193
Albinism 195
Retinitis pigmentosa 196
Retinoblastoma 198
Retinopathy of prematurity 198
Vitreous 199
Retinal holes 204
Retinal detachment 206

Appendix 1: Hyperlipidemia 209

Appendix 2: Amsler grid 211

Index 212
