

Contents

Preface — VII

Acknowledgments — IX

The Author — XI

Chapter 1

Introduction — 1

- 1.1 Background — 1
- 1.2 Water Importance — 2
- 1.3 Safe Drinking Water Act — 3
- 1.4 Water Contaminants or Pollutants — 3
 - 1.4.1 Contaminant Candidate List — 4
- 1.5 Questions — 7

Chapter 2

Water Chemistry — 8

- 2.1 Properties of Water (Physical and Chemical Properties) — 8
 - 2.1.1 Density — 8
 - 2.1.2 Solubility — 9
 - 2.1.3 Polarity — 10
 - 2.1.4 Acid–Base Behavior — 11
 - 2.1.5 Water States — 12
 - 2.1.6 Water Redox Reaction (Water Redox Process) — 13
 - 2.1.7 Water's Cohesive and Adhesive Properties — 13
- 2.2 Hard Water — 14
- 2.3 Soft Water — 16
- 2.4 Heavy Water — 16
- 2.5 Water Hydrates — 17
- 2.6 Questions — 18

Chapter 3

Water Sources — 19

- 3.1 Natural Resources — 19
- 3.2 Water Cycle — 21
- 3.3 Water Supply — 22
 - 3.3.1 Surface Water — 23
 - 3.3.2 Groundwater — 29

- 3.3.3 Rainwater — **34**
- 3.4 Questions — **35**

Chapter 4

Water Pollution and Pollutants — 36

- 4.1 Water Pollution — **36**
- 4.2 Water Pollution Causes — **36**
 - 4.2.1 Agricultural Sector — **36**
 - 4.2.2 Sewage and Wastewater — **37**
 - 4.2.3 Oil Spills — **38**
 - 4.2.4 Radioactive Waste — **38**
- 4.3 Pollution Impacted Water Type — **40**
 - 4.3.1 Groundwater Pollution — **40**
 - 4.3.2 Surface Water Pollution — **41**
- 4.4 Effects of Water Pollution — **42**
 - 4.4.1 On Human Health — **42**
 - 4.4.2 On the Environment — **42**
- 4.5 Water Pollutants — **43**
- 4.6 Questions — **43**

Chapter 5

Microbial Contaminants in Water — 44

- 5.1 Water Consumption as a Source of Disease — **44**
 - 5.1.1 Cholera — **45**
 - 5.1.2 Salmonellosis — **46**
 - 5.1.3 Shigellosis or Bacillary Dysentery — **46**
 - 5.1.4 Pathogenic *Escherichia coli* Strains — **48**
- 5.2 Microbial Contaminants in Potable Drinking Water — **48**
- 5.3 Bottled Water Microbiology — **49**
 - 5.3.1 Source Water — **49**
 - 5.3.2 Water Treatment Before Bottling — **49**
- 5.4 Questions — **50**

Chapter 6

Water Analysis — 51

- 6.1 Common Water Tests — **51**
 - 6.1.1 Color, Odor, and Taste — **51**
 - 6.1.2 Turbidity — **53**
 - 6.1.3 Jar Test — **55**
 - 6.1.4 pH Measurements — **55**

6.1.5	Alkalinity —	56
6.1.6	Hardness —	58
6.1.7	Residual Chlorine —	60
6.1.8	Chlorides —	63
6.1.9	Sulfates —	63
6.1.10	Dissolved Oxygen —	65
6.1.11	Total Dissolved Solids —	66
6.1.12	Total Suspended Solids —	67
6.1.13	Coliform Bacteria Test —	67
6.2	Questions —	71

Chapter 7

Water Quality — 72

7.1	Parameters of Water Quality —	73
7.1.1	Physical Parameters of Water Quality —	73
7.1.2	Chemical Parameters of Water Quality —	76
7.1.3	Biological Parameters of Water —	77
7.2	Question —	78

Chapter 8

Water Treatment — 79

8.1	Drinking Water —	79
8.2	Seawater —	80
8.2.1	Distillation (Desalination) —	80
8.2.2	Reverse Osmosis —	80
8.2.3	Electrodialysis —	81
8.2.4	Advantages of Seawater Desalination —	82
8.2.5	Disadvantages of Seawater Desalination —	82
8.3	Municipality and Industrial Water Waste —	82
8.3.1	Sources —	82
8.3.2	Methods of Treatment —	83
8.3.3	Treatment Processes —	83
8.4	Questions —	84

Chapter 9

Water and Wastewater Treatment Techniques — 85

9.1	Coagulation —	85
9.1.1	Coagulants in Water Treatment —	85
9.1.2	Coagulant Aids —	86
9.2	Flocculation —	86

9.2.1	Flocculants —	87
9.3	Sedimentation —	88
9.3.1	Conventional Basins —	89
9.3.2	High-Rate Basins —	89
9.3.3	Sedimentation Influencing Factors —	91
9.4	Softening —	92
9.4.1	Softening Methods —	93
9.5	Stabilization —	97
9.5.1	Scale Formation or Deposition —	99
9.5.2	Corrosion —	99
9.5.3	Sequestration or Sequestering —	101
9.5.4	CaCO ₃ Deposition Determination —	101
9.6	Filtration —	104
9.6.1	Granular Media (Bed) Filtration —	104
9.6.2	Membrane Filtration —	105
9.7	Disinfection —	106
9.7.1	Chlorination —	106
9.7.2	Chloramination —	106
9.7.3	Chlorine Dioxide —	108
9.7.4	Ultraviolet Light Water Treatment —	108
9.7.5	Ozonation —	108
9.7.6	Photocatalytic Disinfection —	109
9.8	Fluoridation —	110
9.9	Questions —	110

Chapter 10

Stormwater Management and Green Infrastructure — 111

10.1	Introduction —	111
10.2	Types of Green Infrastructure —	112
10.2.1	Green Roofs —	112
10.2.2	Rain Gardens —	113
10.2.3	Permeable Pavement —	113
10.3	Questions —	114

Chapter 11

Water as a Renewable Energy Source — 116

11.1	Introduction —	116
11.2	Endless Energy Sources —	116
11.3	Natural Resources —	116
11.4	Renewable Energy Resources —	117

11.5	Hydroelectric or Hydropower Stations —	117
11.6	Types of Hydropower Energy Plants —	118
11.7	Questions —	118

Essential Terms — 119

Abbreviations — 123

Resources and Further Readings — 125

Index — 129
