

Table of Contents

1. Introduction	1
------------------------------	----------

Part I. Earthquakes and Fractals

2. Fractal Concepts	5
2.1 Introduction	5
2.2 Some Important Fractal Dimensions	6
2.2.1 Euclidean and Similarity Dimension	7
2.2.2 Hausdorff Dimension	7
2.2.3 Capacity Dimension D_0	8
2.2.4 Information Dimension D_1	10
2.2.5 Correlation Dimension D_2	12
2.2.6 Generalised Dimensions and Multifractals	15
2.2.7 Deviations from Ideal Fractals	17
3. A Sample Application to Landslides	19
3.1 Introduction	19
3.2 The Data	21
3.3 Fractal Analysis	23
3.4 Multifractal Analysis	26
3.5 Analysis of Synthetic Data	32
3.6 Multifractal Results for Hokkaido and Tohoku	37
3.7 Configuration Entropy	38
3.8 Entropy Results for Hokkaido and Tohoku	40
3.9 Discussion of Landslide Results	43
4. Some Fractal Properties of Earthquakes	45
5. The Hurst Phenomenon	49
5.1 Theoretical Background	49
5.2 The Hurst Phenomenon and Earthquakes	53
5.3 Application of Hurst Analysis to Seismicity	55

6. Multifractal Spectra as Precursors	61
6.1 Multifractal Earthquake Precursors	61
6.2 Multifractal Phase Transitions	66
7. Fractal Precursory Behaviour	71
7.1 The Data	71
7.2 Overall Properties	72
7.2.1 Multifractal Spectrum	74
7.2.2 HOT Analysis	78
7.2.3 Configuration Entropy	80
7.3 Temporal Variation of Properties	80
7.3.1 Temporal Multifractal	82
7.3.2 Temporal Configuration Entropy	88
8. Fractal Properties of Aftershocks	93
8.1 Multifractal Properties	95
8.2 Configuration Entropy	99
8.3 (An)Isotropic Fractal Properties	100
8.4 Overall and Aftershock Seismicity	101

Part II. Earthquakes and Chaos

9. Chaos	107
9.1 Nonlinear Time Series Analysis	109
9.2 Analysis of Known Dynamics	113
9.2.1 Quasi-periodic Dynamics	113
9.2.2 Infinite-dimensional Dynamics (Noise)	118
9.2.3 Low-dimensional Chaotic Dynamics	123
9.3 Analysis of Earthquake Data	128
9.3.1 Radon	128
9.3.2 Strain	134
9.3.3 Inter-arrival Times	141
9.3.4 Monitoring Seismicity in Phase Space	151
A. A Modified Box-Counting Algorithm	159
B. Fractal Cluster Analysis	163
Acknowledgements	165
References	167
Index	177
