

CONTENTS

PART 1. OPTIMIZATION PROBLEMS

- H.Halkin: The Method of Dubovitskii-Milyutin in Mathematical
Programming 1
- R.T.Shield: Optimum Design of Structures Through Variational
Principles 13
- T.Y.Wu ,A.T.Chwang and P.K.C.Wang: Optimization Problems in
Hydrofoil Propulsion 38

PART 2. STABILITY PROBLEMS

- E.F.Infante: Stability Theory for General Dynamical Systems
and Some Applications 63
- E.M.Barston: Stability of Dissipative Systems with Applications
to Fluids and Magnetofluids 83
