

Contents

Part I	Opening Invited Paper	
Retrospect and Prospect on Research and Development of Electroluminescent Panels		
By T. Inoguchi (With 6 Figures)		2
Part II	Basic Physics	
Developments in the Theory of Electroluminescence Mechanisms		
By J.W. Allen (With 4 Figures)		10
Auger Effect in Semiconductors: Why Does It Matter for Electroluminescence?		
By J.M. Langer (With 4 Figures)		16
The Impact Cross Section of Electroluminescence Centers		
By Yu Jiaqi, Shen Yongrong, Xu Xumou, Luo Baozhu, and Zhong Guozhu (With 1 Figure)		24
Impact Excitation Cross Section in Electroluminescence		
By Shen Mengyan and Xu Xurong (With 1 Figure)		32
Electroluminescent Mechanisms of Rare-Earth-Doped ZnS Thin Films		
By P. Benalloul (With 8 Figures)		36
Time Resolved Emission Spectra in ZnS Thin Film Electroluminescent Devices		
By R. Nakano, H. Matsumoto, N. Miura, N. Sakagami, J. Shimada, and T. Endo (With 5 Figures)		44
Excitation Mechanism Based on Field-Induced Delocalization of Luminescent Centers in CaS:Eu ²⁺ and SrS:Ce ³⁺ Thin-Film Electroluminescent Devices		
By H. Yoshiyama, S.H. Sohn, S. Tanaka, and H. Kobayashi (With 4 Figures)		48
Excitation Mechanism in White-Light Emitting SrS:Pr, K and SrS:Ce, K, Eu Thin-Film Electroluminescent Devices		
By S. Tanaka, H. Yoshiyama, J. Nishiura, S. Ohshio, H. Kawakami, K. Nakamura, and H. Kobayashi (With 3 Figures)		56
Novel Step Impact Electroluminescent Devices		
By H.J. Lozykowski (With 3 Figures)		60

Preparation of a Low Voltage ZnS Thin Film Electroluminescent Device Using Injection of Hot Electrons into the Emitting Layer By Y. Nakanishi, Guixi Zhou, T. Ando, and G. Shimaoka (With 4 Figures)	65
---	----

Part III	Luminescence Characteristics and Materials
-----------------	---

Secondary Light Output from ZnS:Mn Thin Film Electroluminescent Devices By H. Schade and M. Ling (With 2 Figures)	72
Thermally Stimulated Currents in Thin Film Electroluminescent Devices By Y. Sano and K. Nunomura (With 10 Figures)	77
Measurement of Trap Levels in Electroluminescent Devices by Photon- Released Residual Charges By H. Uchiike, M. Noborio, T. Tatsumi, S. Hirao, and Y. Fukushima (With 7 Figures)	81
Influence of the Mn Concentration and the Level of Excitation on Efficiency of ZnS:Mn Devices By J. Benoit, P. Benalloul, and A. Geoffroy (With 3 Figures)	85
Characterization of Isolated Mn ²⁺ Ions in ZnS:Mn Thin Film By H. Uchiike, S. Hirao, M. Noborio, and Y. Fukushima (With 4 Figures)	89
Bound-Excitonic Emissions in Undoped and Mn-Doped ZnS Single Crystals By T. Taguchi (With 8 Figures)	93
About the Microstructure of Luminescent Centers in SiO _x and ZnS Films Doped with Tb and Mn Fluorides By N.A. Vlasenko, I.N. Geifman, A.B. Goncharenko, Ya.F. Kononetz, and V.S. Khomchenko (With 1 Figure)	98
On the Stability of Rare Earth Centers in II–VI Compounds By D. Hommel, H. Hartmann, F.J. Bryant, M.J.R. Swift, W. Busse, and H.-E. Gumlich (With 4 Figures)	101
The Relation of Thin Film Electroluminescence and Photoluminescence Excitation Spectra By Zhilin Zhang, Zhuotong Li, Biao Mei, Xueyin Jiang, Peifang Wu, and Shaohong Xu (With 3 Figures)	105
The Dependence of Near Band Edge Electro- and Photoluminescence on Purity of Starting Materials in ZnSe Crystals By Xiwu Fan and Jiying Zhang (With 5 Figures)	109
Photoluminescence of Zinc-Sulfo-Selenide Single Crystals Grown by Sublimation Method By S.R. Tiong, M. Hiramatsu, Y. Matsushima, M. Ohishi, K. Ohmori, and H. Saito (With 5 Figures)	113

CdS-ZnS Superlattice Electroluminescent Device Prepared by Hot Wall Epitaxy By H. Fujiyasu, N. Katayama, H. Yang, K. Ishino, A. Ishida, M. Kaneko, and T. Ohiwa (With 3 Figures)	116
An Electroluminescent Device Using Sintered Manganese-Doped Zinc Sulfide Phosphor Ceramics By T. Minami, T. Nishiyama, S. Tojo, H. Nanto, and S. Takata (With 7 Figures)	119
Role of Sulfur Vacancies in Luminescence of Pure CaS By P.K. Ghosh and V. Shanker (With 2 Figures)	123
Structural Disorders in $Gd_2O_3S:Tb$ Phosphors By V. Shanker, P.K. Ghosh, H.P. Narang, and H. Chander (With 3 Figures)	127
<hr/> Part IV Color Electroluminescence <hr/>	
Thin Film Electroluminescent Phosphors for Patterned Full-Color Displays By R.T. Tuenge (With 6 Figures)	132
The TbOF Complex Center and the Brightness of ZnS Thin-Film Green Electroluminescent Devices By K. Okamoto, T. Yoshimi, and S. Miura (With 8 Figures)	139
Doping Conditions of Tb, F Luminescent Centers in ZnS: Tb, F Films - Effects of Fabrication Methods on Doping Conditions By J. Mita, T. Hayashi, Y. Sekido, and I. Abiko (With 4 Figures)	145
Effects of Preparation and Operation Conditions on Electroluminescence Spectra of ZnS:TbF ₃ Film Structures By N.A. Vlasenko, V.S. Khomchenko, S.F. Terechova, M.M. Chumachkova, L.I. Veligura, S.I. Balyasnaya, and Yu.A. Tzircunov (With 1 Figure)	149
Green AC Electroluminescence in ZnS Thin Films Doped with Tb, Er and Ho Ions and Concentration Quenching Models By Guozhu Zhong, Changhua Li, Lijian Meng, and Hang Song (With 4 Figures)	153
Pulse-Excited Characteristics of Electroluminescent Device Based on ZnS:Tb, F Thin Films By H. Ohnishi (With 4 Figures)	157
AC Electroluminescence of Ho-Implanted ZnS Thin Films By Lijian Meng, Changhua Li, and Guozhu Zhong (With 3 Figures) . . .	161
High-Luminance ZnS:Sm, F Thin-Film Electroluminescent Devices Using Ferroelectric PbTiO ₃ Thin-Film By R. Fukao, H. Fujikawa, M. Nakamura, Y. Hamakawa, and S. Ibuki (With 4 Figures)	164

Electroluminescent Devices With CaS:Eu^{2+} Active Layer Grown by R.F. Reactive Sputtering By D. Yebdri, P. Benalloul, and J. Benoit (With 4 Figures)	167
Improvement in Electro-Optical Characteristics of CaS:Eu Electroluminescent Devices By M. Ando, Y.A. Ono, K. Onisawa, and H. Kawakami (With 6 Figures)	171
ZnS-like Behaviour of Efficient CaS:Eu Electroluminescent Devices By R. Mach, H. Ohnishi, and G.O. Mueller (With 6 Figures)	176
Bright SrS TFEL Devices Prepared by Multi-Source Deposition By S. Tanda, A. Miyakoshi, and T. Nire (With 6 Figures)	180
Sulphur Defects and Deep Levels in SrS:Ce Thin Films By Y. Tamura and H. Kozawaguchi (With 6 Figures)	183
$\text{Sr}_{1-x}\text{Zn}_x\text{S:Ce}$, F Phosphor for Thin Film Electroluminescent Devices By K. Takahashi, K. Utsumi, Y. Ohnuki, and A. Kondo (With 8 Figures)	187
SrSe:Ce Thin Film Electroluminescent Device By S. Oseto, Y. Kageyama, M. Takahashi, H. Deguchi, K. Kameyama, and I. Fujimura (With 3 Figures)	191
Electroluminescence of Rare-Earth Activated SrS Thin-Films By S. Okamoto, E. Nakazawa, and Y. Tsuchiya (With 1 Figure)	195
Multi-Color Electroluminescent Devices Utilizing SrS:Pr , Ce Phosphor Layers and Color Filters By Y. Abe, K. Onisawa, K. Tamura, T. Nakayama, M. Hanazono, and Y.A. Ono (With 4 Figures)	199

Part V	Processing Technology
---------------	------------------------------

Electroluminescent Materials Grown by Atomic Layer Epitaxy By M. Leskelä (With 7 Figures)	204
The Role of Chemical Vapour Deposition in the Fabrication of High Field Electroluminescent Displays By A. Saunders and A. Vecht (With 4 Figures)	210
Multi-Source Deposition Method for ZnS and SrS Thin-Film Electroluminescent Devices By T. Nire, T. Watanabe, N. Tsurumaki, A. Miyakoshi, and S. Tanda (With 10 Figures)	218
Efficient ZnS:Mn Electroluminescent Films Grown by Metal Organic Chemical Vapor Deposition By M. Shiiki, M. Migita, O. Kanehisa, and H. Yamamoto (With 3 Figures)	224
Chemical Vapor Deposition of Thin Films for ACEL By D.C. Morton, M.R. Miller, A. Vecht, A. Saunders, G. Tyrell, E. Hryckowian, R.J. Zeto, L. Calderon, and R.T. Lareau (With 3 Figures)	228

AC Thin-Film ZnS:Mn Electroluminescent Device Prepared by Intense Pulsed Ion Beam Evaporation By Y. Shimotori, M. Yokoyama, K. Masugata, and K. Yatsui (With 5 Figures)	232
---	-----

Part VI	Thin Film Electroluminescent Panels
Review of Flat Panel Displays: Electroluminescent Displays, Liquid Crystal Displays, Plasma Displays, etc. By H. Uchiike (With 3 Figures)	238
Design Rules for Thin Film Electroluminescent Display Panels By L.L. Hope (With 4 Figures)	246
Power Consumption of Thin-Film Electroluminescent Matrix Display By J. Kuwata, E. Ozaki, Y. Fujita, T. Tohda, T. Matsuoka, M. Nishikawa, T. Tsukada, and A. Abe (With 6 Figures)	254
TFEL Matrix Display Design Rules Based on a 3 Part Electrical Model By M.R. Miller and T.G. Kelley (With 3 Figures)	259
Degradation Processes in Thin Film Electroluminescent Devices By R. Mach and G.O. Mueller (With 11 Figures)	264
ZnS:Mn Electroluminescent Devices with High Performance Using SiO ₂ /Ta ₂ O ₅ /SiO ₂ Insulating Layer By M. Yoshida, T. Yamashita, K. Taniguchi, K. Tanaka, T. Ogura, A. Mikami, H. Nakaya, S. Yamaue, and S. Nakajima (With 4 Figures) ..	273
Thin Film Photoconductor-Electroluminescent Memory Display Devices By P. Thioulouse (With 10 Figures)	277
Tunable Color Electroluminescence Display Operated by Pulse Code Modulation By Y. Hamakawa, H. Fujikawa, M. Nakamura, T. Deguchi, and R. Fukao (With 6 Figures)	286
Optical Behaviour of Electroluminescent Devices By R.H. Mauch, K.A. Neyts, and H.W. Schock (With 4 Figures)	291
Current Filaments in ZnS:Mn DC Thin Film Electroluminescent Devices By M.I.J. Beale, J. Kirton, and M. Slater (With 6 Figures)	296
Cathode-Zinc Sulphide Barrier Heights and Electron Injection in Direct Current Thin Film Electroluminescent Devices By M.J. Davies and R.H. Williams (With 3 Figures)	301
Low Voltage Driven Electroluminescent Devices with Manganese-Doped Zinc Sulfide Thin Film Emitting Layer Grown on Insulating Ceramics by Metal Organic Chemical Vapor Deposition By T. Minami, T. Miyata, K. Kitamura, H. Nanto, and S. Takata (With 5 Figures)	306

Sound Emitting Thin Film Electroluminescent Devices Using Piezoelectric Ceramics as Insulating Layer By T. Minami, T. Miyata, K. Kitamura, H. Nanto, and S. Takata (With 6 Figures)	310
Characteristics of ZnO:Al Transparent Conductive Films By H. Kawamoto, R. Konishi, H. Harada, and H. Sasakura (With 5 Figures)	314
Recent Developments and Trends in Thin-Film Electroluminescent Display Drivers By S. Sutton and R. Shear (With 4 Figures)	318
Bidirectional Push-Pull Symmetric Driving Method of Thin Film Electroluminescent Display By K. Shoji, T. Ohba, H. Kishishita, and H. Uede (With 3 Figures)	324

Part VII	Powder Electroluminescent Panels
-----------------	---

Analysis of the Lifetime of Powder Electroluminescent Phosphors By R.H. Marion, H.A. Harris, and W.A. Tower (With 8 Figures)	332
On the Mechanism of "Forming" and Degradation in DCEL Panels By S.S. Chadha and A. Vecht (With 5 Figures)	337
Application of Sol-Gel Technique to the Preparation of AC Powder Electroluminescent Device By R. Igarashi, M. Jimbo, Y. Nosaka, H. Miyama, and M. Yokoyama (With 5 Figures)	342
Multicolor ac-Electroluminescent Display Panel Using Red Electroluminescent Phosphors By Ge Baogui	346
Electroluminescence in Calcium Sulphide By B. Ray	350

Part VIII	Light Emitting Diodes
------------------	------------------------------

Organic Electroluminescent Diodes By C.W. Tang and S.A. VanSlyke (With 1 Figure)	356
Electroluminescence in Vacuum-Deposited Organic Thin Films By C. Adachi, S. Tokito, M. Morikawa, T. Tsutsui, and S. Saito (With 6 Figures)	358
Conductivity Control of ZnSe Grown by Metalorganic Vapor Phase Epitaxy and Its Application for Injection Electroluminescence By T. Yasuda, I. Mitsuishi, T. Koyama, and H. Kukimoto (With 2 Figures)	362

Characteristics of an Efficient ZnS Blue Light-Emitting Diode with a High-Resistivity ZnS Layer Grown by Metalorganic-Chemical-Vapour-Deposition By K. Kurisu and T. Taguchi (With 6 Figures)	367
Electron Injection and Electroluminescence in Graded II–VI Compound Hetero-Junctions By W. Lehmann (With 7 Figures)	371
Free Exciton Emission in $\text{ZnS}_x\text{Se}_{1-x}$ MIS Diodes with High Pulse Current Density By Dezhen Shen and Xiwu Fan (With 4 Figures)	376
Electroluminescence of ZnSe:Mn MS Diodes in the High Electric Field By Xiwu Fan and Xurong Xu (With 4 Figures)	379
Photo- and Electro-Luminescence of Rare Earth (Er, Yb)-Doped GaAs and InP Grown by Metalorganic Chemical Vapor Deposition By K. Takahei, P. Whitney, H. Nakagome, and K. Uwai (With 4 Figures)	382
Ultraviolet Light-Emitting Diode of Cubic Boron Nitride PN Junction By K. Era, O. Mishima, Y. Wada, J. Tanaka, and S. Yamaoka (With 1 Figure)	386
Electroluminescence Spectrum of Manganese-Doped CuAlS_2 By K. Sato, K. Ishii, K. Tanaka, S. Matsuda, and S. Mizukawa (With 4 Figures)	390
Index of Contributors	395
