Preface — V

List of contributors — IX

Francesco Abate, Corinna Ponti, Paolo Aprea

1 Feasibility of the circular economy and plastic pollution — 1

Francesca De Falco, Emilia Di Pace, Maurizio Avella, Mariacristina Cocca

2 Impact of plastics on marine environments: from macro- to microplastic pollution — 23

Raquel Requena, María Vargas, Amparo Chiralt

3 Plastics from bacteria (polyhydroxyalkanoates) — 39

Aleksandra Nesic, Arash Moeini, Gabriella Santagata

4 Marine biopolymers: alginate and chitosan — 73

Gaetano Zuccaro, Jean-Philippe Steyer

5 Terrestrial biopolymers: cellulose, starch, lignin — 93

Angela Marotta, Veronica Ambrogi, Alice Mija

6 Biobased thermosetting materials — 109

Leire Ruiz-Rubio, Julia Sánchez-Bodón, Isabel Moreno, Leyre Pérez-Álvarez, José Luis Vilas-Vilela

7 Polyester-based biodegradable polymers for commodities — 135

Valentina Marturano, Veronica Ambrogi, Iuliana Cota, Pierfrancesco Cerruti

8 Biobased functional additives for polymers — 173

Sarai Agustin-Salazar, Pierfrancesco Cerruti, Gennaro Scarinzi

9 Biobased structural additives for polymers — 193

Federico Olivieri, Cristina De Capitani, Andrea Sorrentino

10 Additive manufacturing for biodegradable polymers — 235

Index — 253
