

# Contents

## Preface — 1

## 1 Seaweed Meanders — 6

### 1.1 Seaweed Meanders — 6

#### 1.1.1 Collapse Procedure for Seaweed Meanders — 12

#### 1.1.2 Collapse: Results on Connectivity — 16

### 1.2 Proof of the Obstruction-Theorem — 21

#### 1.2.1 Obstruction-Theorem for Seaweed Meanders: Four Upper Blocks — 21

#### 1.2.2 Obstruction-Theorem for Seaweed Meanders with at Least Four Upper Blocks — 24

## 2 Meanders — 27

### 2.1 Collapse of (Closed) Meanders — 33

### 2.2 Results and Examples for Connected Meanders — 41

## 3 Morse Meanders and Sturm Global Attractors — 46

### 3.1 Sturm Global Attractors — 46

#### 3.1.1 CW Complexes: Sturm Global Attractors — 49

### 3.2 Morse Meanders — 50

#### 3.2.1 Definition of Morse Meanders — 53

#### 3.2.2 Raising the Morse Indices — 56

## 4 Right and Left One-Shifts — 61

### 4.1 Morse Meanders of Type I — 61

### 4.2 Morse Meanders of Type II — 66

### 4.3 Morse Meanders of Type III and IV — 70

### 4.4 Sets of Morse Meanders of Type I, II, III, and IV are Disjoint and Consist of Pitchforkable Elements — 73

### 4.5 Detecting Morse Meanders – Discussion — 79

<b>5</b>	<b>Connection Graphs of Type I, II, III and IV — 82</b>
5.1	Suspensions of Connection Graphs — 84
5.2	Construction of Connection Graphs of Type I, II, III and IV — 84
5.2.1	Connection Graphs of Type I — 85
5.2.2	Isomorphism Class of Type I Connection Graphs — 88
5.2.3	Connection Graphs of Type II — 94
5.2.4	Isomorphism Class of Type II Connection Graphs — 97
5.2.5	Connection Graphs of Type III and IV — 99
5.3	Connection Graphs of Different Types Are Non-Isomorphic — 99
<b>6</b>	<b>Meanders and the Temperley–Lieb Algebra — 103</b>
6.1	From Open Meanders to Closed Meanders — 103
6.2	From Blocks to Strand Diagrams — 104
6.3	Temperley–Lieb Algebra — 106
6.4	Left and Right One-Shifts in Terms of Temperley–Lieb Algebra — 113
<b>7</b>	<b>Representations of Seaweed Lie Algebras — 117</b>
7.1	Index of a Lie Algebra — 117
7.2	Seaweed Lie Algebras — 119
7.3	Graph Representations of Seaweed Lie Algebras — 119
<b>8</b>	<b>CYBE and Seaweed Meanders — 126</b>
8.1	The Origin of Yang–Baxter Equation — 126
8.2	YBE and the Braid Relation — 130
8.3	Classical Yang–Baxter Equation (CYBE) — 131
8.3.1	Frobenius Lie Algebras and Constant Solutions of CYBE — 132
	<b>Summary in German (Zusammenfassung) — 134</b>
	<b>Bibliography — 137</b>
