Preface — V

- 1 Introduction and preliminaries — 1**
 - 1.1 Introduction — 1
 - 1.2 Preliminaries — 2
- 2 Refinements and reverses for Young inequality — 9**
 - 2.1 Reverses for Kittaneh–Manasrah inequality — 12
 - 2.2 Young inequalities with Specht ratio — 14
 - 2.3 Reverse Young inequalities — 17
 - 2.4 Generalized reverse Young inequalities — 19
 - 2.5 Young inequalities by exponential functions — 23
 - 2.5.1 Elementary proofs for Dragomir's inequalities — 23
 - 2.5.2 Further refinements by r -exponential function — 28
 - 2.6 Young inequalities with new constants — 32
 - 2.7 More accurate inequalities — 36
 - 2.7.1 Inequalities for positive linear maps — 41
 - 2.7.2 Inequalities to operator monotone functions — 42
 - 2.8 Sharp inequalities for operator means — 46
 - 2.8.1 Operator means inequalities — 47
 - 2.8.2 Young inequalities by sharp constants — 53
 - 2.9 Complement to refined Young inequality — 57
 - 2.9.1 Refinement of Kantorovich inequality — 57
 - 2.9.2 Operator inequalities for positive linear maps — 62
 - 2.10 On constants appearing in refined Young inequality — 64
- 3 Inequalities related to means — 69**
 - 3.1 Operator inequalities for three means — 69
 - 3.2 Heron means for positive operators — 71
 - 3.3 Inequalities related to Heron mean — 78
 - 3.4 Some refinements of operator inequalities for positive linear maps — 82
- 4 Norm inequalities and trace inequalities — 91**
 - 4.1 Unitarily invariant norm inequalities — 92
 - 4.2 Trace inequality — 100
 - 4.2.1 Trace inequalities for products of matrices — 103
 - 4.2.2 Conjectured trace inequality — 108
 - 4.2.3 Belmega–Lasaulce–Debbah inequality — 113

5	Convex functions and Jensen inequality — 117
5.1	A generalized operator Jensen inequality — 117
5.2	Choi–Davis–Jensen inequality without convexity — 124
5.3	Operator Jensen–Mercer inequality — 128
5.4	Inequalities for operator concave function — 138
5.5	Bounds on operator Jensen inequality — 143
5.6	Operator inequalities via geometric convexity — 150
5.6.1	Scalar inequalities — 151
5.6.2	Numerical radius inequalities — 154
5.6.3	Matrix norms — 160
5.7	Exponential inequalities for positive linear maps — 161
5.8	Jensen’s inequality for strongly convex functions — 170
6	Reverses for classical inequalities — 179
6.1	Reverses for complemented Golden–Thompson inequalities — 179
6.2	Reverses for operator Aczél inequality — 185
6.3	Reverses for Bellman operator inequality — 191
7	Applications to entropy theory — 197
7.1	Some inequalities on the quantum entropies — 198
7.2	Karamata inequalities and applications — 203
7.3	Relative operator entropy — 210
7.3.1	Refined bounds for relative operator entropies — 210
7.3.2	Reverses to information monotonicity inequality — 215
8	Miscellaneous topics — 225
8.1	Kantorovich inequality — 225
8.1.1	New operator Kantorovich inequalities — 225
8.1.2	Functions reversing operator order — 229
8.1.3	New refined operator Kantorovich inequality — 233
8.2	Skew information and uncertainty relation — 238
8.2.1	Skew information and uncertainty relation — 239
8.2.2	Schrödinger uncertainty relation with Wigner–Yanase skew information — 241

Bibliography — 247

Index — 257
