Chapter 1

Introduction — 1

Moritz Bassen, Katia Nchimi, Huayna Terraschke

Chapter 2

Guest-induced luminescence of metal-organic frameworks — 5

Patric Lindenberg, Katia Nchimi, Huayna Terraschke

Chapter 3

Synthesis, functionalisation, and applications of iron oxide magnetic nanoparticles — 47

Niklas Ruser, Huayna Terraschke

Chapter 4

Nanostructured bioceramics — 73

Huayna Terraschke, Markus Suta

Chapter 5

In situ luminescence analysis of coordination sensors (ILACS): looking inside chemical reactions — 105

Huayna Terraschke

Chapter 6

In situ monitoring of the syntheses, phase transformations, and loading processes of metal-organic frameworks — 133

Huayna Terraschke, Katia Nchimi, Felix Hartmann, Wolfgang Bensch

Chapter 7

Operando studies on the charge and discharge processes of battery materials — 171
