

Table of Contents

Surveys and Tutorials

A Pragmatic Survey of Automated Debugging <i>Mireille Ducassé</i>	1
Usability Criteria for Automated Debugging Systems <i>Nahid Shahmehri, Mariam Kamkar, Peter Fritzson</i>	16
The Notions of Symptom and Error in Declarative Diagnosis of Logic Programs <i>Gérard Ferrand</i>	40

Debugging of Logic Programs I

Debugging by Diagnosing Assumptions <i>Luís M. Pereira, Carlos Viegas Damásio, José J. Alferes</i>	58
Debugging Logic Programs Using Specifications <i>Yuh-Jeng Lee, Nachum Dershowitz</i>	75
Model-Based Diagnosis Meets Error Diagnosis in Logic Programs <i>Luca Console, Gerhard Friedrich, Daniele T. Dupré</i>	85

Testing and Debugging of Concurrent and Distributed Systems

Towards Declarative Debugging of Concurrent Constraint Programs <i>Markus P. J. Fromherz</i>	88
Hierarchy in Testing Distributed Programs <i>Sridhar Alagar, S. Venkatesan</i>	101

Debugging Functional Programs

Lazy Algorithmic Debugging: Ideas for Practical Implementation <i>Henrik Nilsson, Peter Fritzson</i>	117
The Location of Errors in Functional Programs <i>Jonathan E. Hazan, Richard G. Morgan</i>	135

Debugging of Logic Programs II

A Generalized Query Minimization for Program Debugging <i>Visit Hirunkitti, C. J. Hogger</i>	153
What's in a Trace: The Box Model Revisited <i>Gerhard Tobermann, Clemens Beckstein</i>	171
Declarative Debugging of Abstract Data Types in Gödel <i>Dominic Binks</i>	188

Slicing

Slicing Programs with Arbitrary Control Flow <i>Thomas Ball, Susan Horwitz</i>	206
---	-----

Slicing Concurrent Programs <i>Jingde Cheng</i>	223
--	-----

Visualization and Graphical User Interfaces

Animators for Generated Programming Environments <i>Frank Tip</i>	241
--	-----

Visualization as Debugging: Understanding/Debugging the Warren Abstract Machine <i>Julio García-Martín, Juan J. Moreno-Navarro</i>	255
--	-----

Graphical User Interfaces for Algorithmic Debugging <i>Rickard Westman, Peter Fritzson</i>	273
---	-----

Knowledge-Based Debugging and Trace-Based Debugging

Towards a Plan Calculus Based Intelligent Debugging System <i>Rudi Lutz</i>	287
--	-----

Trace-Based Debugging <i>Steven P. Reiss</i>	305
---	-----

Software Maintenance and Debugging of Logic Programs III

Identifying Faulty Modifications in Software Maintenance <i>Bogdan Korel</i>	315
---	-----

The Application of Formal Specifications to Software Documentation and Debugging <i>Anoop Goyal, Sriram Sankar</i>	333
--	-----

Automatic Diagnosis of VLSI Digital Circuits Using Algorithmic Debugging <i>Krzysztof Kuchcinski, Włodzimierz Drabent, Jan Maluszynski</i>	350
---	-----
